Getting ready to use eVAL

eVAL is an online tool that is made available at no cost to all 295 school districts in the state of Washington. Districts may choose to use some or all of its components. However, to use it effectively, it is recommended that the following activities will have already taken place in a school or district:

1. Teachers have had training in the **instructional framework** selected by the district, and have a clear understanding of its structure and the characteristics of each level of performance;
2. Principals have had training in the **leadership framework** selected by the district, and have a clear understanding of its structure and the characteristics of each level of performance;
3. **Data about incoming students** for the current school year has been provided to both principals and teachers;
4. Principals and teachers have a clear understanding regarding **multiple measures** as it relates to evidence: *and...*
5. **eVAL must have been set up and configured** for navigation and interaction between the principal and teacher.
 - The user must have an account and an eVAL role assigned to them within the EDS system.
 - The District Security Manager must have approved their request for access to eVAL.
 - The District Administrator of eVAL, School Administrator of eVAL, or Principal must have paired each **teacher** with their **evaluating principal**.
 - The District eVAL Administrator must have confirmed the instructional and leadership framework for the current year.

This user guide provides step-by-step instructions for school personnel that are engaged in formative growth and evaluation, and who wish to use the online eVAL tool as a support for those efforts.

This user guide is limited to the activities associated with **formative professional growth**, and does not include instructions for summative scoring and evaluation...or...reporting. Please refer to other tutorials at <http://web3.esd112.org/tpep/eval>.

The URL for the eVAL Sandbox is <http://sandbox.eval-wa.org>

You can find sample text and artifacts to practice with in the eVAL Sandbox at two web sites:

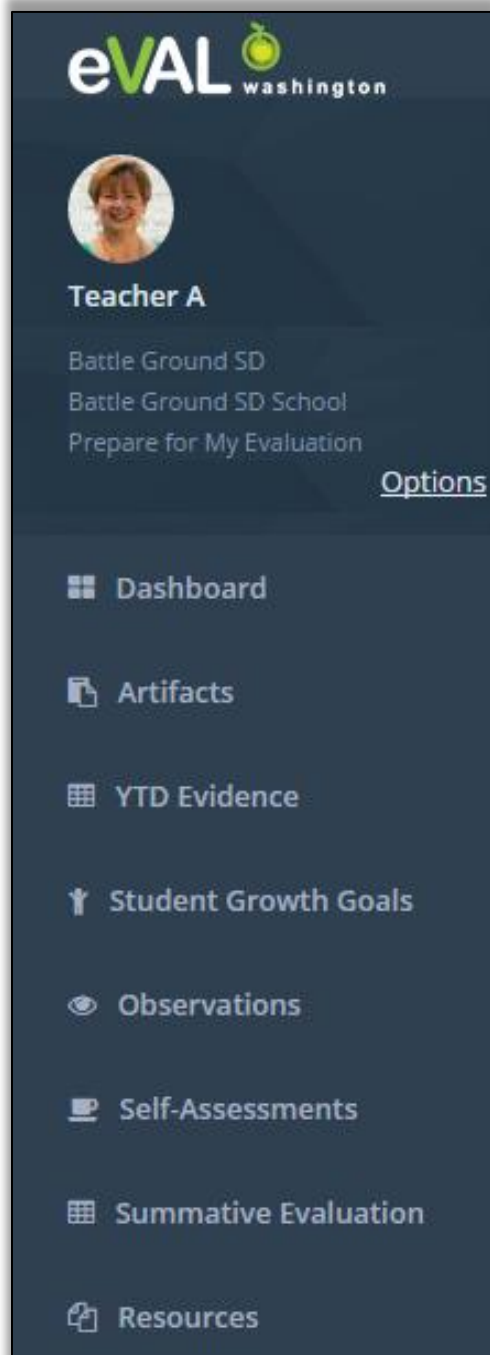

<http://web3.esd112.org/tpep/eval>

<http://tinyurl.com/eVAL-training-files>

The URL for the eVAL tool is <https://eval-wa.org>

For teachers to know

A teacher has four primary responsibilities when using eVAL for formative growth and evaluation:

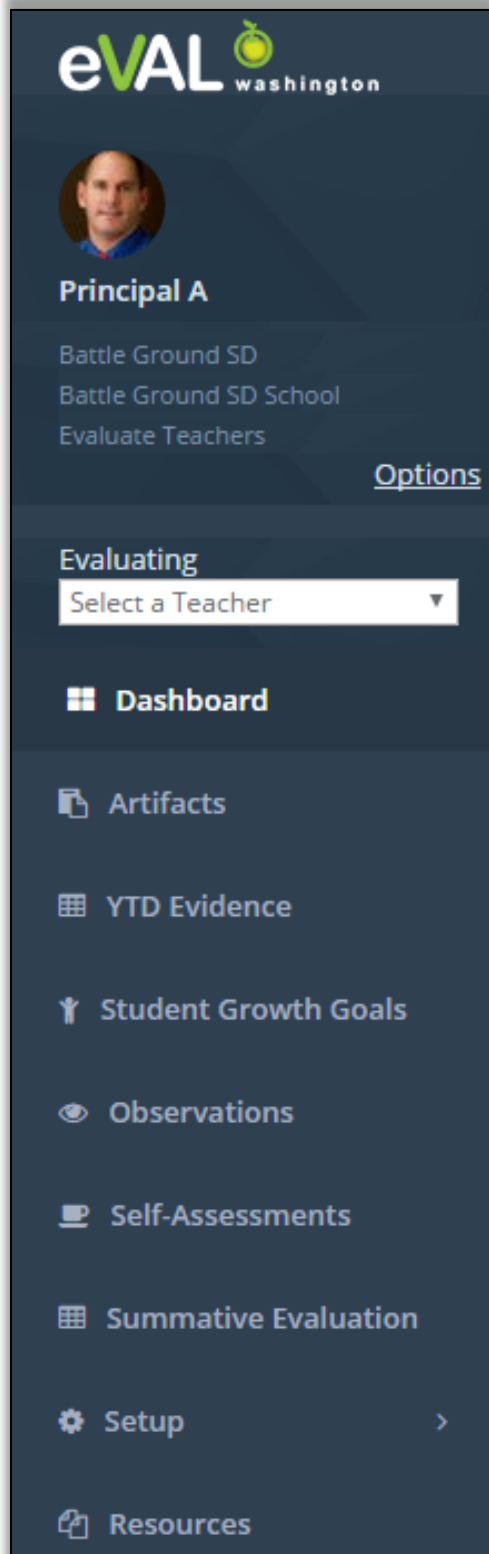

1. Conducting a quality self-assessment (according to the district's selected instructional framework);
2. Engaging in goal-setting;
3. Interacting with the evaluating principal during the observation process; and
4. Managing artifacts and evidence of professional growth, proficiency, and student achievement.

To carry out these responsibilities, a teacher interacts with menus for specific tasks/activities (shown to the left):

- **Dashboard** – The teacher can monitor activity in which s/he has engaged.
- **Artifacts** – The teacher uploads and describes resources that can be shared with his/her evaluating principal, and that might be used as evidence.
- **YTD Evidence** – The teacher manages resources that serve as evidence in his/her evaluation.
- **Student Growth Goals** – The teacher writes his/her own goals, as well as writes goals in response to the principal's prompts.
- **Observations** – The teacher participates in the three events around the observation cycle.
- **Self-Assessments** – The teacher completes his or her self-assessment.
- **Summative Evaluation** – The teacher views and prints the summative scores of the evaluations.
- **Resources** – The teacher has access to pertinent resources that have been provided by the district or school administrator of eVAL.

For principals to know

A principal or head principal has four primary responsibilities when using eVAL for formative growth and evaluation:

1. Review self-assessments that are submitted by their assigned teachers;
2. Set and communicate goals, and respond to goals that are self-assigned by teachers;
3. Schedule and conduct observations and conferences; and
4. Review (and possibly score) evidence.

To carry out these responsibilities, a principal interacts with menus for specific tasks and activities (shown to the left):

- **Dashboard** – The principal can view and monitor progress toward the completion of each teacher’s evaluation.
- **Artifacts** – The principal can view items that have been shared by their teachers.
- **YTD Evidence** – The principal can view, monitor and <possibly> score evidence that has been submitted by his/her teachers.
- **Student Growth Goals** – The principal writes and assigns goal prompts, and reviews and (possibly) scores goals submitted by his/her assigned teachers.
- **Observations** – The principal schedules, conducts and reviews observations with his/her assigned teachers.
- **Self-Assessments** – The principal reviews (and possibly scores) the self-assessments submitted by his/her teachers.
- **Summative Evaluation** – The principal engages in the summative scoring and the creation of the final summative reports.
- **Setup** – The principal can add prompts to the prompt bank, and assign teachers to him/herself (if the District Administrator of eVAL has delegated that task to the School Administrator and Principal
- **Resources** – The principal has access to pertinent resources that have been provided by the District or School Administrator of eVAL. The principal can also provide these resources, as well.

Signing into eVAL

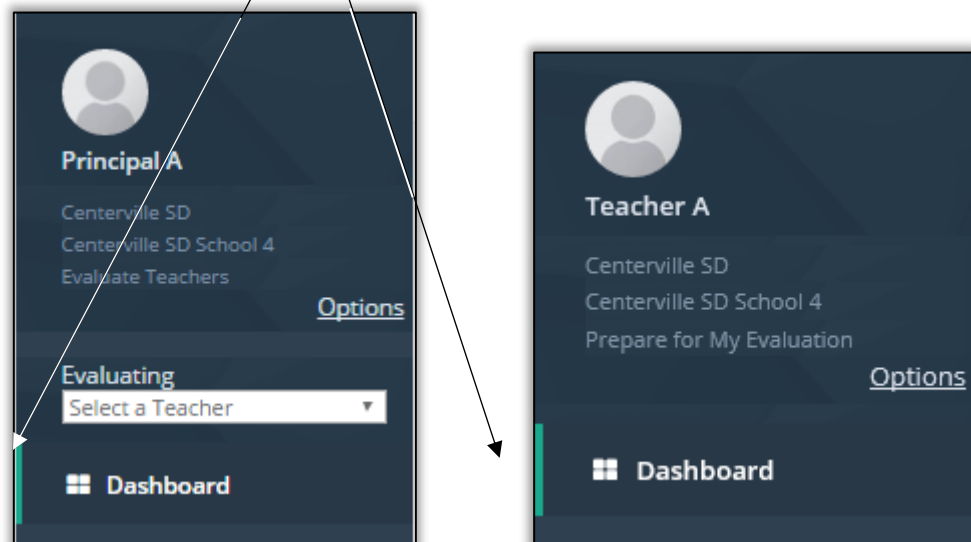

- ◆ A user signs in to the eVAL tool using the Office of the Superintendent of Public Instruction's Education Data System, or EDS. To access the Education Data System (EDS) web page, open your browser and go to the following URL: <https://eds.ospi.k12.wa.us>. You will need your username and password.

username or [password](#)?'"/>

Once a user is signed into the EDS system, they will see a list of applications to which they have access. Click on **eVAL**. No further login or password is required.

Whether you are a principal or teacher using eVAL, your **dashboard** will be the first screen you see. You'll know that you are at the dashboard because there will be a green marker to the left of the word **Dashboard** in the menu on the left.

SPECIAL INSTRUCTIONS FOR SIGNING IN AS A PRINCIPAL (OR ANY EVALUATOR)

All principals will sign into eVAL according to the instructions on Page 6 of this user guide. However, once a principal signs in, s/he may have an additional step to take before using eVAL for their intended purpose. For example...

Principal

A Principal will need to click on the **Options** link at the top of the menu area, and then use the **Work Area** pull down menu to identify whether s/he is signing into eVAL to prepare for his/her own evaluation or to evaluate teachers.

The screenshot shows the eVAL interface for a Principal. The left sidebar displays the user profile 'Principal A' with roles 'Battle Ground SD', 'Battle Ground SD School', and 'Evaluate Teachers'. The main area features an 'Options' link, an 'Evaluating' dropdown set to 'Select a Teacher', and a menu with 'Dashboard', 'Artifacts', 'YTD Evidence', and 'Student Growth Goals'. The right panel shows the 'Options' section with fields for 'Year' (2017), 'District' (Battle Ground SD), and 'School' (Battle Ground SD School). The 'Work Area' dropdown is open, showing 'Evaluate Teachers' (selected), 'Prepare for My Evaluation', and 'Evaluate Teachers'. 'Close' and 'Done' buttons are at the bottom.

Head Principal

A Head Principal will need to click on the **Options** link at the top of the menu area, and then use the **Work Area** pull down menu to identify whether s/he is signing into eVAL to prepare for his/her own evaluation, evaluate teachers, or evaluate principals.

The screenshot shows the eVAL interface for a Head Principal. The left sidebar displays the user profile 'Head Principal' with roles 'Battle Ground SD', 'Battle Ground SD School', and 'Evaluate Principals'. The main area features an 'Options' link, an 'Evaluating' dropdown set to 'Select a Principal', and a menu with 'Dashboard', 'Artifacts', 'YTD Evidence', and 'Student Growth Goals'. The right panel shows the 'Options' section with fields for 'Year' (2017), 'District' (Battle Ground SD), and 'School' (Battle Ground SD School). The 'Work Area' dropdown is open, showing 'Evaluate Principals' (selected), 'Prepare for My Evaluation', 'Evaluate Teachers', and 'Evaluate Principals'. 'Close' and 'Done' buttons are at the bottom.

District Evaluator

Since a District Evaluator only evaluates principals, s/he will automatically enter into the eVAL tool ready to carry out that responsibility. There are no alternatives when they click on the **Options** link at the top of the menu area.

Solving the mystery of the missing tabs

There may be times when the tabs appear in a horizontal layout ...

... and other times when they disappear from sight, and you find them in a drop-down menu:

This happens when the width of your browser window (and in some cases, your screen) is not adequate to display all of the tabs in a horizontal orientation. If this happens and you wish to see all of the tabs across the top of your work space, widen the browser window if you can. If this is not possible, rest assured that all of the tabs will still appear in the drop-down menu.

CHAPTER 1

SETTING UP eVAL TO USE WITH TEACHERS

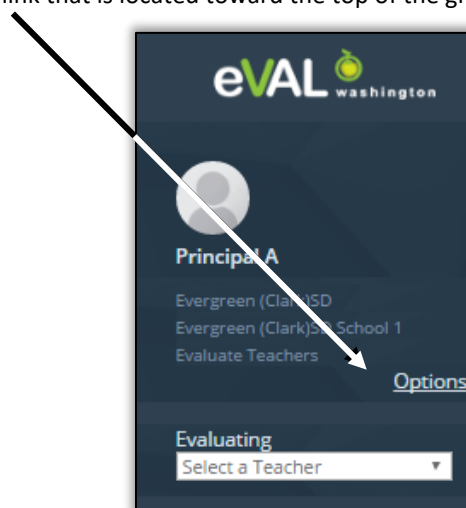

■ Chapter 1a: Assigning teachers to their evaluators and to their evaluation cycles

Context:

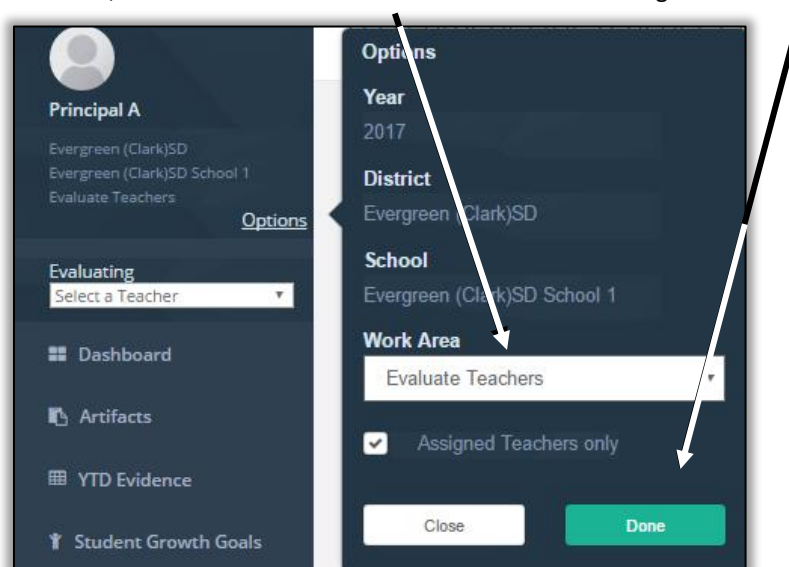

A principal can assign each teacher to their evaluator and identify their evaluation cycle (comprehensive or focused) for the year. In order for the principal to be able to carry out these tasks, both of the following conditions must be met:

- The District Security Manager must have set up both all principals and teachers in a building correctly in the EDS System and assigned each of them their correct roles ... and ...
- The District Administrator of eVAL must have delegated the responsibility of **Assignments** to the **School** level so that the principal can carry out the assignments of each teacher's evaluator and their evaluation cycle.

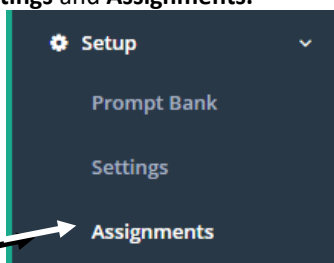

1. Login to eVAL. Click on the **Options** link that is located toward the top of the gray vertical menu bar.

2. In the space that appears to the right, make sure that the **Work Area** says **Evaluate Teachers**. If it doesn't, use the small triangle in the pull-down menu for the white field, and choose **Evaluate Teachers**. Then click on the green **Done** button.

- Click on the **Setup** menu item in the gray vertical menu bar. It will be the next-to-the-last menu item listed. The **Setup** menu will expand and a green marker will appear to the left of the **Setup** menu, indicating that menu is now the active menu. In addition, three sub-menus will appear: **Prompt Bank**, **Settings** and **Assignments**.

- Click on the **Assignments** sub-menu. The large white workspace for teacher assignments will appear on the right, and will display a table of information for all of the teachers assigned to that school.

Teacher Assignments

Teachers: 26
Assigned: 26
Awaiting Assignment: 0

☐ Hide Teachers with completed assignments

Teacher	Last Year Evaluation Type	Suggested Evaluation Type	Evaluation Type	Evaluator	Ready
Teacher A	N/A	N/A	Comprehensive ▾	Principal A ▾	✓
Teacher B	N/A	N/A	Comprehensive ▾	Principal A ▾	✓
Teacher C	N/A	N/A	Comprehensive ▾	Principal A ▾	✓

- If the District's eVAL Administrator has granted the principals the right to assign teachers to their evaluators, then the principal can use the drop-down menu in the **Evaluator** column to select that teacher's evaluator.

Evaluation Type	Evaluator	Ready
Comprehensive ▾	Principal A ▾	✓
Comprehensive ▾	-- Select an Evaluator --	✓
Comprehensive ▾	Head Principal	✓
Comprehensive ▾	Principal A	✓
Comprehensive ▾	Principal B	✓
Comprehensive ▾	Principal C	✓
Comprehensive ▾	Principal D	✓

- To set the type of evaluation for a teacher, find that teacher's name in the list, and use the pull-down menu in the **Evaluation Type** column to make your selection.

Teacher	Last Year Evaluation Type	Suggested Evaluation Type	Evaluation Type	Evaluator	Ready
Teacher A	N/A	N/A	Not Set	Principal C ▾	
Teacher B	N/A	N/A	Not Set	Principal A ▾	✓
Teacher C	N/A	N/A	Comprehensive Focused Comprehensive ▾	Principal A ▾	✓

7. If you selected **Comprehensive** in Step #6, you’re done with the task of setting that teacher’s type of evaluation for the year. However, if you selected **Focused** in Step 64 above, the following screen will appear, and there is more to do:

Setup Focused Evaluation

Select Focus Criteria:

Select a Focus Criteria

☐ Apply WAC 392-191A Focused evaluation (392-191A-120) change and carry forward most recent Comprehensive score.

Cancel Save

- a. All teachers on a **focused** plan must choose a student growth goal (C3, C6 or C8). If their focused plan is limited to one of those three criteria, use the drop-down menu to select the pertinent goal, and click on the green **Save** button.

Setup Focused Evaluation

Select Focus Criteria:

C3

☐ Apply WAC 392-191A Focused evaluation (392-191A-120) change and carry forward most recent Comprehensive score.

Cancel Save

8. You will return to the **Assignments** workspace. The teacher’s evaluation type will be displayed. Use the **Edit** button if needed.

Teacher	Last Year Evaluation Type	Suggested Evaluation Type	Evaluation Type	Evaluator	Setup Complete
Teacher A	N/A	N/A	Focused Focus:C3 Student Growth:C3	Principal A	✓

Chapter 1b: Writing prompts for pre- and post-conferences

Context:

In eVAL 2.0, pre- and post-conference prompts can be developed and saved by the District Administrator, School Administrator or Principal. They are stored in a prompt bank, and the creator(s) of the prompts can mark them as **Required** or **Not Required**.

PLEASE NOTE:

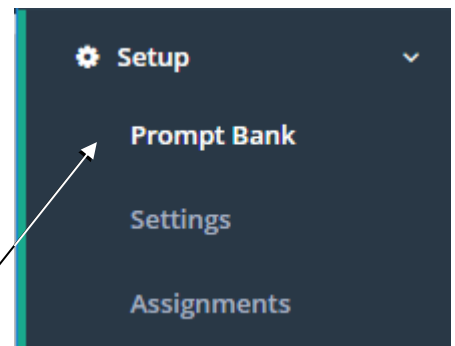

Only the District Administrator of eVAL can write prompts for Student Growth Goals. They are required, by default.

Who can create pre- and post-conference prompts?

- Head Principals
- Principals
- District Administrators (of eVAL)
- School Administrators (of eVAL)

How to get started:

- Select the group (principals or teachers) whose prompts you are creating.
- If the **Prompt Bank** menu is not visible in the left menu bar, then click on the **Setup** menu and when it expands, choose **Prompt Bank**.

The work space for the **Pre-Conference** tab will appear, and any prompts that have already been created and saved for pre-conferences for that group will be listed in the work space. The source of that prompt and the requirement status will be noted in the table. Tabs for **Post-Conference** prompts and **Student Growth Goal Setting** prompts will also be visible and available.

A screenshot of the 'Pre-Conference Prompts' workspace. At the top, there are three tabs: 'Pre-Conference' (active), 'Post-Conference', and 'Student Growth Goal Setting'. Below the tabs is a heading 'Pre-Conference Prompts' and a subheading 'Create the prompts you would like to be available for your observations'. Below this is a table with four columns: 'Prompt', 'Source', 'Required', and 'Actions'. The first row shows a prompt about increasing communication with parents, sourced from the 'District', with an 'Add to Default' button. The second row shows a prompt about learning activities, sourced from the 'School', marked as 'Required' with a checkmark, and labeled '(Required Prompt)'. Arrows from the text above point to the 'Pre-Conference' tab, the 'Source' column, and the 'Required' column.

1. To write a prompt, choose the pertinent work space tab. (See the previous page.) Click on the round green button by **Add New Prompt**. A text field will appear under the list of prompts. Click in the text field and type your prompt. If you want to require this prompt for each pre- or post-conference, place a check mark in the box, and then click on the green **Done** button.

Prompt:

Is there anything specific that you would like for me to take note of while I am observing the activity?

☒ Require this prompt in each observation

Cancel Done

2. The new prompt will now be listed in the table. If it has not been assigned to any teachers yet, you can remove or edit it.

Pre-Conference Post-Conference Student Growth Goal Setting

Pre-Conference Prompts

Create the prompts you would like to be available for your observations

Prompt	Source	Required	Actions
What are some ways that you can increase communication with parents and families?	District		Add to Default
Describe the learning activity that I will observe. What is the learning target for the students? How will you know if they have met the learning target? What evidence will you use to demonstrate that the learning target has been met?	School		Add to Default
Is there anything specific that you would like for me to take note of while I am observing the activity?		<input checked="" type="checkbox"/>	Remove Edit

+ Add New Prompt

3. If a **District Administrator** created the prompt, all principals in the district will be able to see and use the prompt for their pre-and post-conferences.
4. If a **School Administrator** created the prompt, all principals in that school can see and use it. If a **Head Principal** or **Principal** created the prompt, other principals in that school can see it.

CHAPTER 2

SELF-ASSESSMENTS

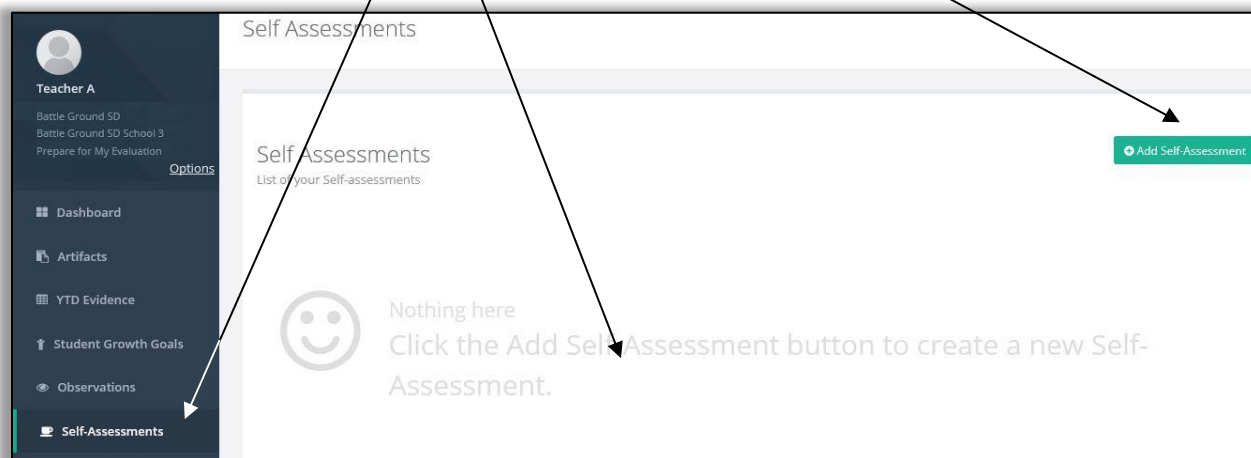

Chapter 2: Self-assessments

Context:

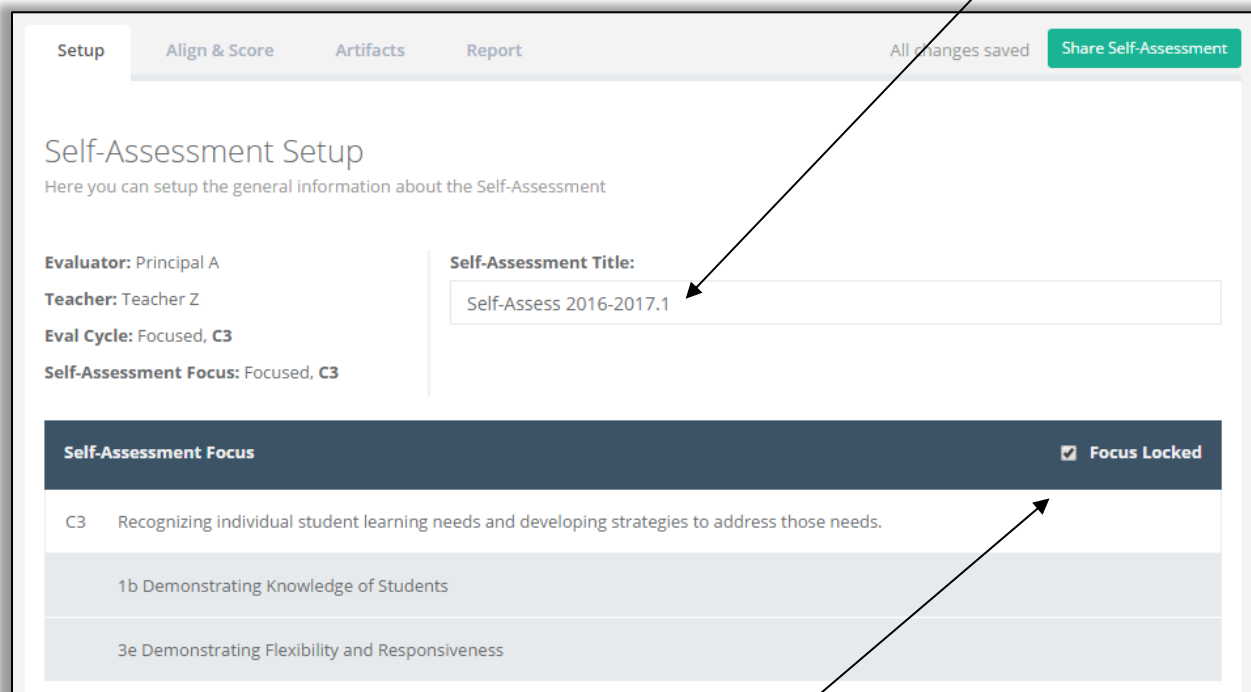

In the eVAL system, self-assessments are available to teachers, vice principals and principals who are being evaluated. Depending on the selected framework, self-assessment may be the first task carried out by a teacher when logging into eVAL. **Please Note:** The self-assessment module will only be available for teachers and principals if your District Administrator of eVAL has enabled it for use.

◆ Chapter 1a: How a teacher conducts a self-assessment

1. To start the process, click on the **Self-Assessments** menu. You'll know that it is active because there will be a green marker to the left of the word. You'll see some ghost text in the work space area. Click on the **Add Self-Assessment** button on the right.

2. Type the name of your self-assessment in the text field (limited to 30 characters), or simply use the one that is provided.

3. eVAL will limit your self-assessment to your area of focus if you are on a focused plan. To conduct a self-assessment in **all** rubric components, click in the checkbox by **Focus Locked** to remove the checkmark. Confirm your decision in the dialog box that appears.

4. Next, click on the **Align and Score** tab. The **Rubric Navigator** will appear on the right, and the **Evidence** button will be active (green).

In planning and practice, teacher makes content errors or does not correct errors made by students.

Teacher's plans and practice display little understanding of prerequisite relationships important to student's learning of the content.

Teacher displays little or no understanding of the range of pedagogical approaches suitable to student's learning of the content.

Teacher is familiar with the important concepts in the discipline but displays lack of awareness of how these concepts relate to one another.

Teacher's plans and practice indicate some awareness of prerequisite relationships, although such knowledge may be inaccurate or incomplete.

Teacher's plans and practice reflect a limited range of pedagogical approaches to the discipline or to the students.

Teacher displays solid knowledge of the important concepts in the discipline and the ways they relate to one another.

Teacher's plans and practice reflect accurate understanding of prerequisite relationships among topics and concepts.

Teacher's plans and practice reflect familiarity with a wide range of effective pedagogical approaches in the discipline.

Teacher displays extensive knowledge of the important concepts in the discipline and the ways they relate both to one another and to other disciplines.

Teacher's plans and practice reflect understanding of prerequisite relationships among topics and concepts and provide a link to necessary cognitive structures needed by students to ensure understanding.

1f	Designing Student Assessments	U	B	P	D

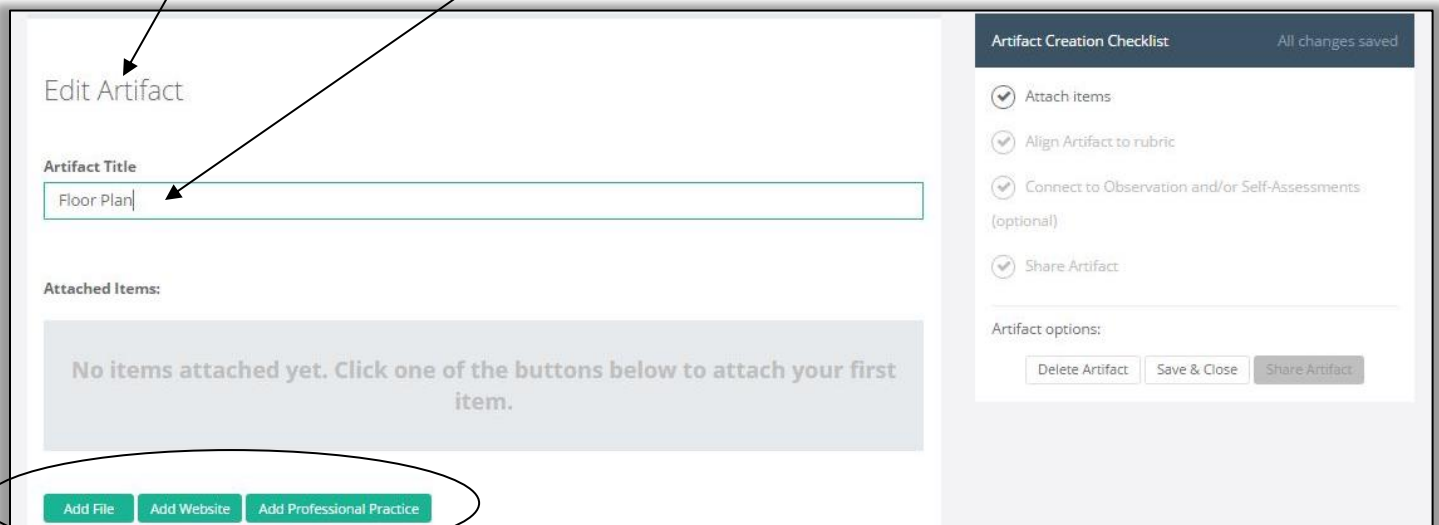

11. You may wish to support your self-assessment with an **artifact**. However, when you click on the **Artifacts** tab, you will notice that there are no artifacts linked to this self-assessment.

12. To use supportive artifacts with your self-assessment, you'll need to temporarily leave the **Self-Assessment** module of eVAL and use the **Artifacts** module. To do so, click on the **Artifacts** menu item on the left. A green marker will appear to the left of the **Artifacts** menu item to show that it is active. If you have uploaded or added artifacts in the past, they will be listed in the work space. To add a new artifact for your self-assessment, click on the green button in the top right corner called **Add Artifact**.

13. The **Edit Artifact** page will appear, and a floating panel called the **Artifact Creation Checklist** will be displayed to help you keep track of the required steps. Give your artifact a title. Limit it to 30 characters.

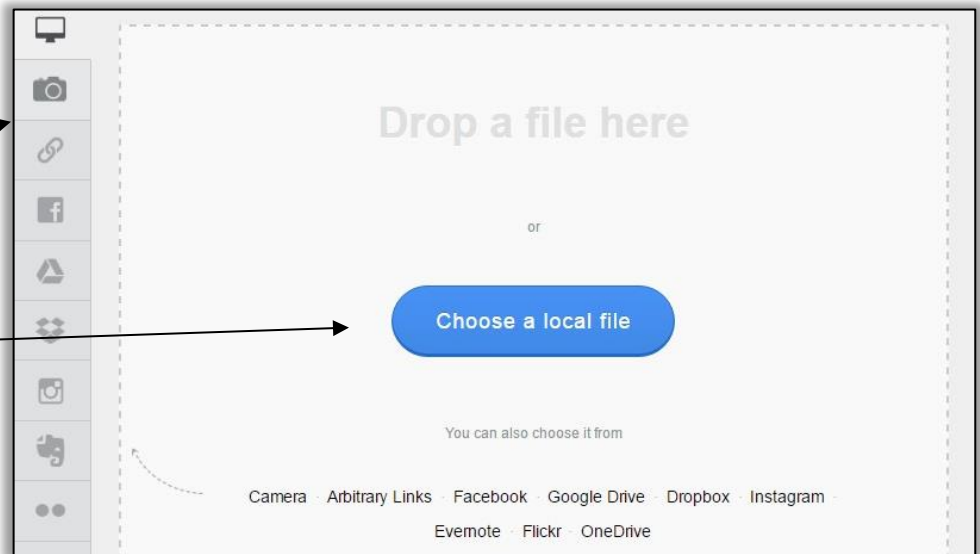

14. At this point, you can add an artifact in one of three formats: a file, a website URL, or a description of a professional practice.

If your artifact is a file, go to **Step #15**. If your artifact is on a website, go to **Step #18**.
If your artifact is something that you'll need to write about, go to **Step #19**.

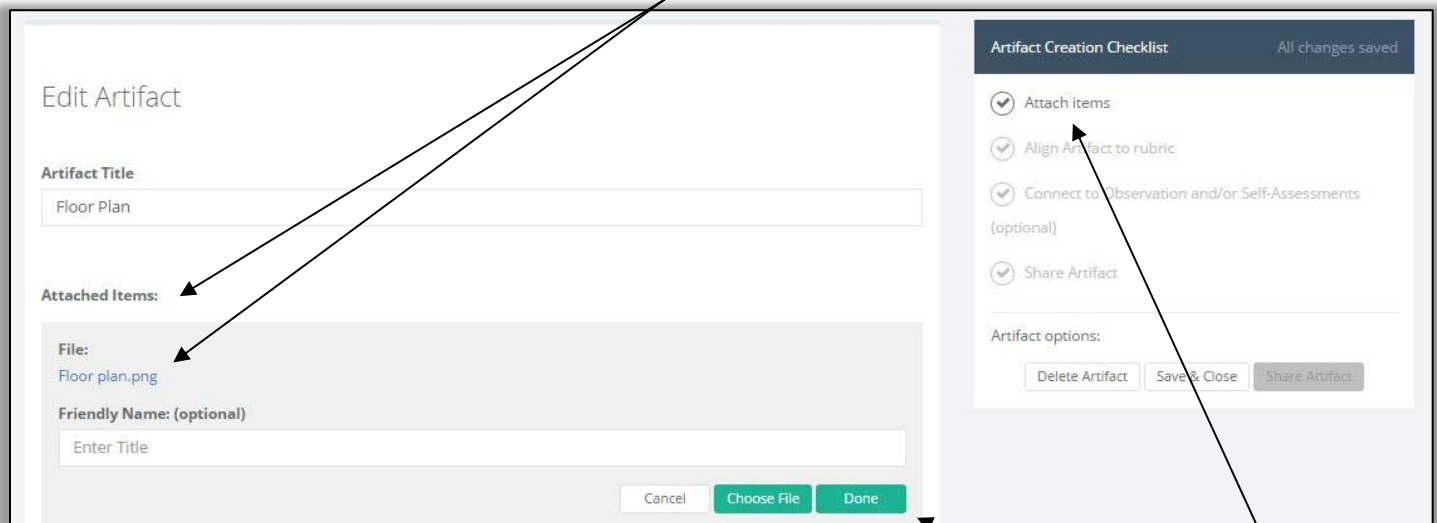

15. To add a file:

Click on the green **Add File** button (shown in **Step #12** above.) A vertical list of icons will appear on the left edge of the window, representing various social media sites where your file might be found. However, most likely, your file is on your hard drive. If it is, click on the blue button called **Choose a local file**.

Navigate your hard drive and locate the file you wish to use. Double click on it.

16. When you have uploaded your file, it will appear in the **Attached Items section of the work space.**

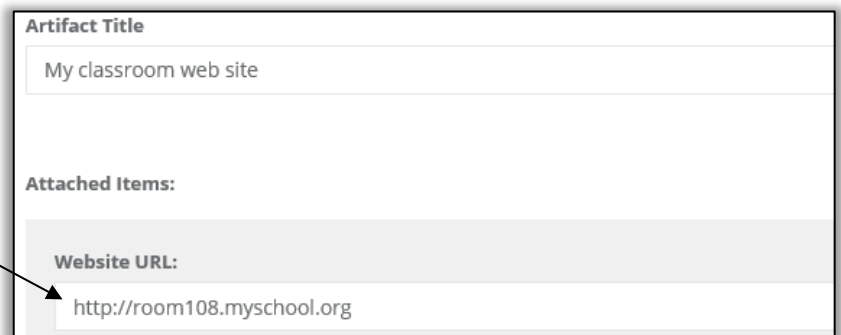

17. Now that you have uploaded your file and given your artifact a name, click on the green **Done button. Now skip to **Step #20**.**

18. To use a website as an artifact:

Click on the green **Add Website** button (shown in **Step #12** above.)

Give your artifact a title, and enter the URL for the web site in the URL field.

Then click the green **Done** button and skip to **Step #20**.

19. To add a description of a professional practice as an artifact:
Click on the green **Add Professional Practice** button (shown in **Step #12** above.)

Give your artifact a title, and type a description of the professional practice that you have demonstrated.

Then click the green **Done** button. Proceed ahead with **Step #20**.

Describe the practice:

I have done several presentations to charitable organizations about the need for books for children who live in poverty.

20. Now that you have added an artifact and clicked the **Done** button, your floating **Artifact Creation Checklist** panel will display a **green checkmark** by the first step to mark its completion. If you need to change your artifact's title or edit the artifact itself, you can click on the green **pencil** button, make your edit, and then click on the green **Done** button again.

Setup Align & Score Artifacts All changes saved **Shared**

Chapter 1b: How the principal views the teacher's self-assessment and related artifacts

The next time the principal signs into eVAL, his/her **Dashboard** for that teacher will display an orange notification next to any activity that is **new**. (It is only a notification; it is **NOT** a clickable button.) The image below shows that the teacher has shared some **new** activity regarding a self-assessment and "other evidence," which in this case, includes the artifacts that are connected to the shared self-assessment. Clicking on either link takes you further down the **Dashboard** page where you can get additional information.

In the **Self Assessments** section of the **Dashboard**, a table displays a considerable amount of information about the teacher's self-assessment. Click on the green **View** button to view information at a more granular level.

Self Assessments

Self-assessments must be shared before evaluators can see them displayed here.

Info	Rubric		Collected	Packaged	Score	Status	Actions
Self-Assess 2016-2017.1 Created: Aug 26, 2016	D1	1a	1	0	PRO	Status: Shared Last Activity: Teacher has shared the self-assessment New	View
		1b	1	0	BAS		
		1c	1	0	PRO		
		1d	1	0	PRO		
		1e	1	0	BAS		
		1f	1	0	PRO		
	D2	2a	1	0	DIS		
		2b	2	0	PRO		
		2c	0	0	BAS		

The principal will be able to see information in the teacher's **Setup** tab, **Align and Score** tab, and **Artifacts** tab.

The principal can also click on the **Report** tab to customize and print a self-assessment report for this teacher, or to generate a self-assessment report in PDF format.

CHAPTER 3

STUDENT GROWTH GOALS

◆ ■ Chapter 3a: Sample SMART Goals

Sample Goal for Instructional Practice:

By the end of the first semester, I will incorporate formative assessment strategies into my lessons with the use of interactive clickers at least twice a week.

Sample Goal for Professional Practice:

By the end of the first quarter, I will create and write a weekly teacher blog that summarizes the learning activities that I am teaching.

Sample Goal for Student Growth:

By May 2013, 100% of ESL students will improve in writing by one performance level as indicated by the quarterly district writing prompt and the district-provided rubric.

***OSPI, March 2013*

Do you know the difference between *student achievement* and *student growth (learning)*? **

Student Achievement The status of subject-matter knowledge, understanding and skills at a specific point in time.

Student Growth The growth in subject-matter knowledge, understanding and skills between two points in time.

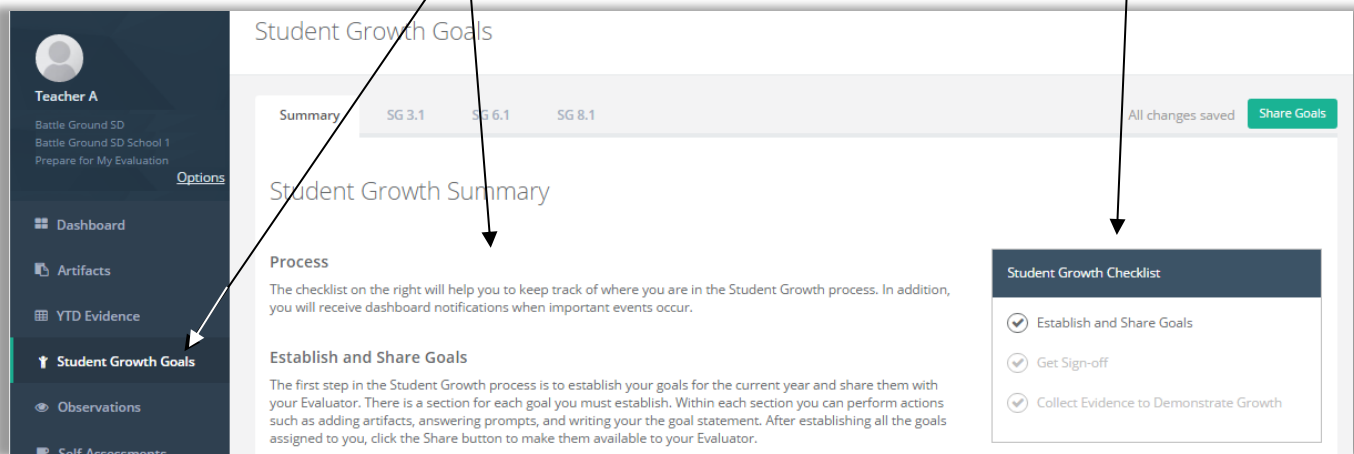

◆ Chapter 3b: Writing student growth goals

Context:

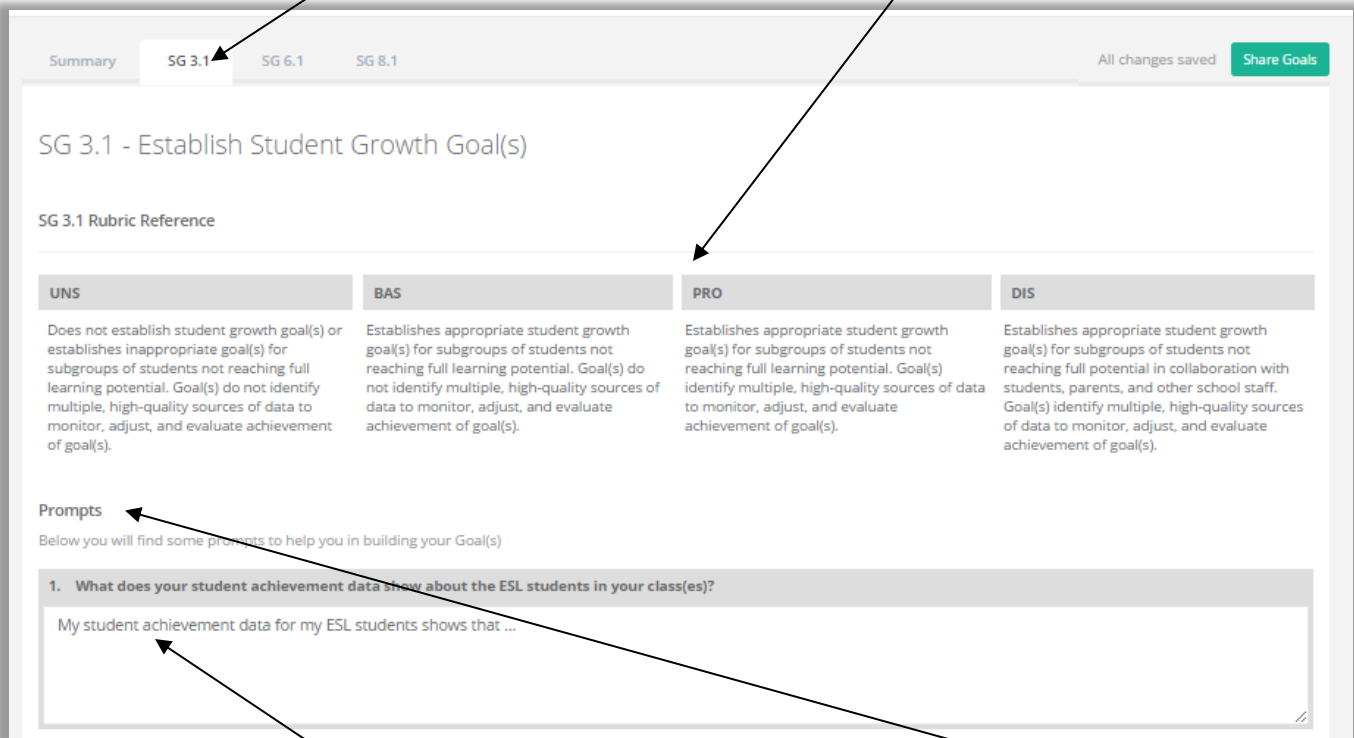

As you saw in **Chapter 2, District Administrators** of eVAL are the only people that can create prompts for **Setting Student Growth Goals**. Prompts that have been marked as **Required** by any creator of a prompt will automatically appear in your eVAL account and will be ready for you to respond to when you are getting ready to write your **student growth goal(s)**. If you are on a **focused plan**, you will only need to write a goal for your focused student growth goal. Teachers on a **comprehensive plan** must write goals for all three.

For Teachers:

1. When you sign in to eVAL, click on the **Student Growth Goals** menu on the left. The work space for the **Student Growth Summary** tab will appear. It will summarize the process, and will list the goals that have been written. It will also display the status of each one.

2. Click on a tab for one of the **Student Growth Goals**, found at the top. The work space for that tab will be displayed.

3. If the **District Administrator** has written a prompt for that **Student Growth Goal**, it will appear in the **Prompts** section of the work space. In this case, click in the text field for the prompt, and type your response. Otherwise, skip this step and go to **Step #4**.

4. Next, type in your **Goal Statement** for that **Student Growth Goal**.

The screenshot shows a form titled "Goal Statement". It contains a text input field with the placeholder text: "By May 2013, 100% of ESL students will improve in writing by one performance level as indicated by the quarterly district writing prompt and the district-provided rubric." Below the input field is a green button labeled "Add New Artifact". Underneath the button is the heading "Artifacts" and a subtext: "Below are the Artifacts that are linked to this Goal (optional)". Two arrows are present: one points to the text input field, and another points to the "Add New Artifact" button.

5. If you have an artifact to support your goal, you can upload it by clicking on the green button entitled **Add New Artifact**. The **Edit Artifact** work space will appear. Here you can identify/upload an artifact and enter information about it.

The screenshot shows the "Edit Artifact" workspace. At the top is a light blue banner with an information icon and the text: "This artifact will also be visible from your Artifacts section. If you want to expand where this artifact is used you can do so there." Below the banner is the "Artifact Title" section with a text input field. Underneath is the "Attached Items:" section, which contains a grey box with the text: "No items attached yet. Click one of the buttons below to attach your first item." Below this box are three green buttons: "Add File", "Add Website", and "Add Professional Practice". Further down is the "Provide reasoning for your alignment choice(s): (optional)" section with a text input field containing the placeholder "Provide reasoning here". At the bottom right are two buttons: "Cancel" and "Save & Close". Three arrows are present: one points to the "Artifact Title" input field, another points to the "Add File" button, and a third points to the reasoning text input field.

6. Give your artifact a title. Then, use the green buttons and the on-screen prompts to add a file, add a web site or add a professional practice as your artifact. Click on the green **Done** button when you are finished.

7. An artifact that is added is called an **Attached Item**. Your attached artifact and its title will be displayed in the **Edit Artifact** work space. The steps you'll take to upload an artifact are described in the **Observations** chapter of this tutorial.

The screenshot shows the 'Edit Artifact' form. At the top, there is a light blue banner with an exclamation mark icon and the text: 'This artifact will also be visible from your Artifacts section. If you want to expand where this artifact is used you can do so there.' Below this is the 'Artifact Title' field, which contains the text 'ESD - SBA - Writing - Spr 2016'. Underneath is the 'Attached Items:' section, which displays a file named 'Artifact - SGG - Pre ESL Writing Data.pdf'. Below the file name is a 'Friendly Name: (optional)' field with the placeholder text 'Enter Title'. At the bottom right of the form are three buttons: 'Cancel', 'Choose File', and 'Done'. Two arrows originate from the text 'Attached Item' in the instruction above: one points to the file name 'Artifact - SGG - Pre ESL Writing Data.pdf' and the other points to the 'Done' button.

8. When you have uploaded your artifact, click on the green **Done** button. At this point, you can click on the pencil icon to make changes to your artifact, and/or provide additional information at the bottom. When finished, click on the green **Save and Close** button.

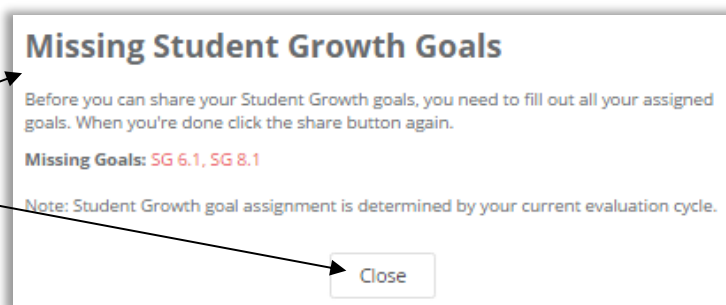

This screenshot shows the 'Edit Artifact' form after the 'Done' button has been clicked. The 'Artifact Title' field still contains 'ESD - SBA - Writing - Spr 2016'. The 'Attached Items:' section now shows the file 'Artifact - SGG - Pre ESL Writing Data.pdf' with a small green pencil icon and a grey 'x' icon to its right. Below this section is a note: 'Note: every artifact must have at least one attached item.' Under the note are three buttons: 'Add File', 'Add Website', and 'Add Professional Practice'. Further down is a section titled 'Provide reasoning for your alignment choice(s): (optional)' with a text area containing the text: 'This is the data that I collected from last spring's SBA assessments for ELA. I used this data to set my Student Growth Goal for writing for my ESL students.' At the bottom center of the form is a green button labeled 'Save & Close'. Three arrows originate from the text in the instruction above: one points to the green pencil icon next to the attached file, another points to the 'Save & Close' button, and a third points to the 'Done' button in the previous screenshot.

9. You will return to the **Establish Student Growth Goal(s)** work space, where you will see all of the pertinent information about the **Student Growth Goal** you wrote.
10. You will be required to write goal statements for all of the **Student Growth Goal** tabs that appear at the top of your screen. Therefore, teachers on a **Focused** evaluation plan will only be required to write one goal. However, teachers on a **Comprehensive** evaluation plan will be required to write goal statements for all three **Student Growth Goals** tabs at the top. To do so, select the next tab, and repeat **Steps 3 through 8** for that goal.
11. When you have finished writing all of your **Student Growth Goal(s)** and are ready to share the goal(s) and associated artifact(s) with your principal, click on the green **Share Goals** button in the top right corner. The associated artifact will be shared at the same time.

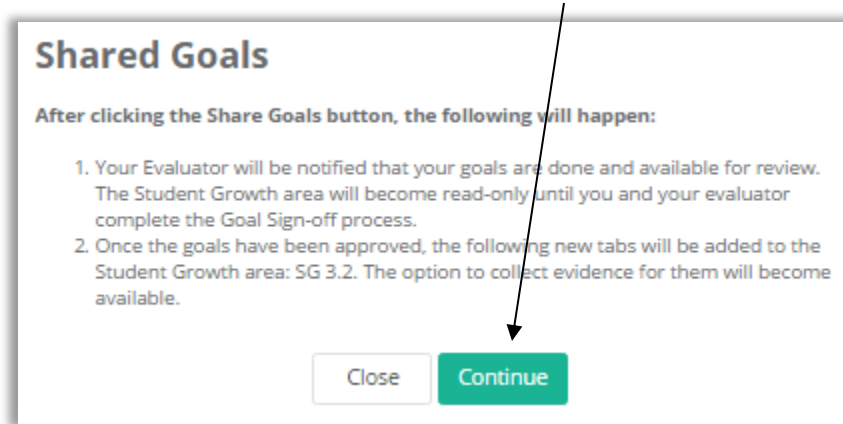

12. If you try to share your goals with your principal before you have written all of your required goals, you'll see the following screen that reminds you that you have more to write.

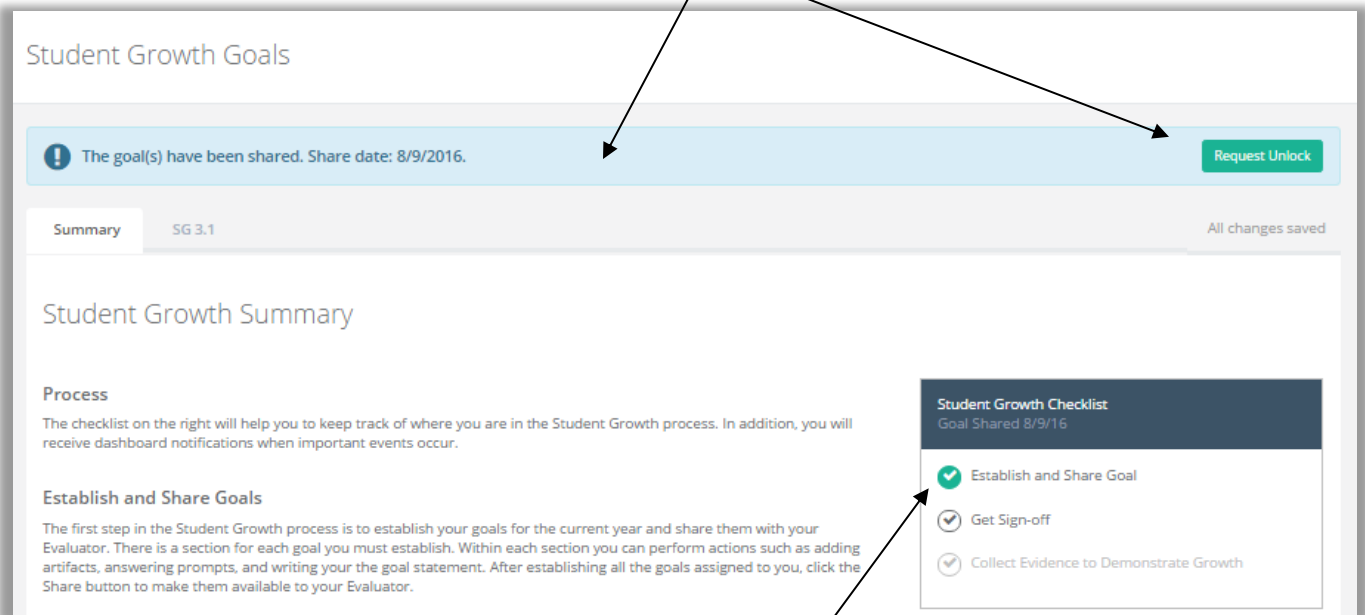

If this screen appears, click the **Close** button and write your goal statements for the remaining **Student Growth Goals** by following **Steps 2-15** in this chapter.

13. If you have written all of your required goal statements and have clicked on the green **Share Goals** button (as described in **Step #9** above), the following message will appear on your screen. Click the green **Continue** button to finish sharing your goal statements.

14. Once you share your **Student Growth Goal(s)** with your principal, a blue bar will appear the top of your **Student Growth Goals** work space. Your goals are "locked" because they are in a "read only" state until your Principal approves them.

15. The **Student Growth Checklist** in the work space will now display a green circle with a checkmark by the first step of the goal-writing process entitled **Establish and Share Goal**, indicating that step has been completed.
16. The next step is for the Principal to take.

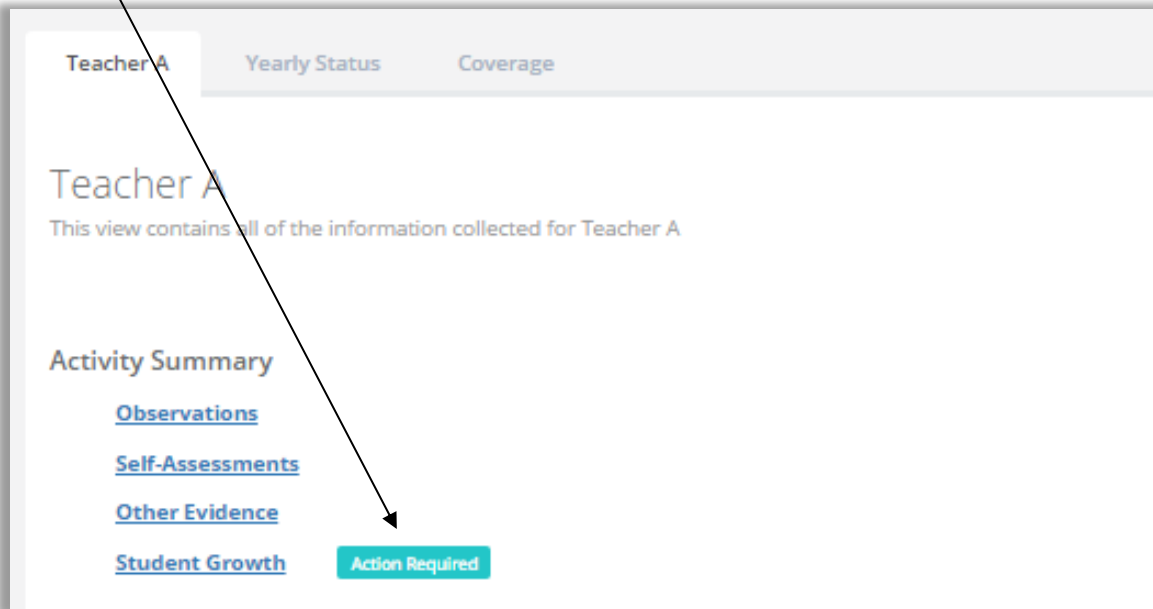

Chapter 3c: Viewing a teacher's student growth goals

Context:

Principals can see the **Student Growth Goals** written and shared by the teacher, as well as any artifacts that the teacher has shared that are pertinent to their student growth goal(s). This chapter covers the required steps for doing so.

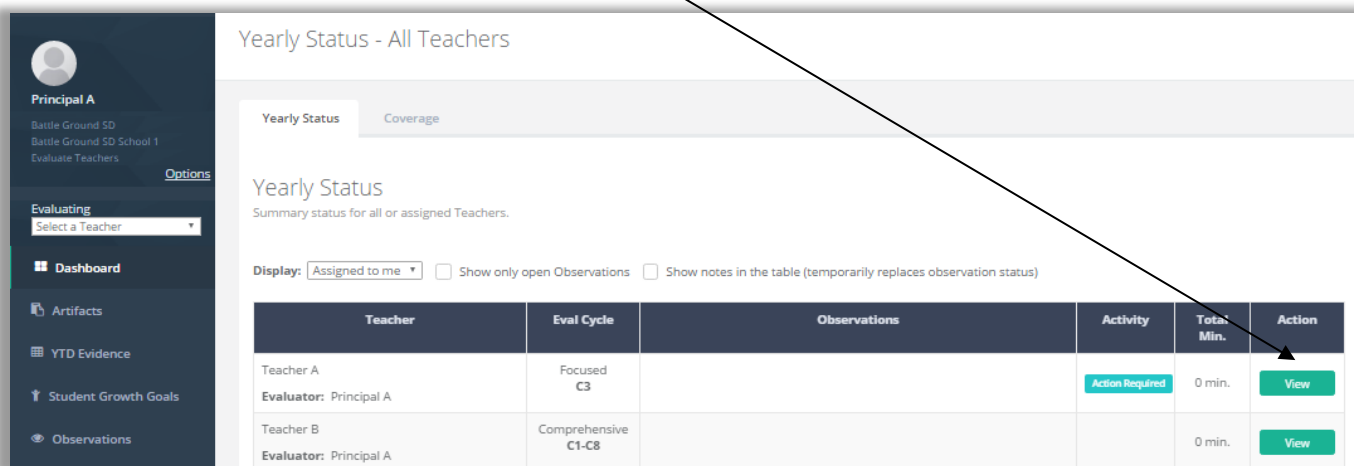

For Principals:

1. After a teacher has shared his/her **Student Growth Goals** and related artifact(s), a teal-colored notification that displays **Action Required** will show up on the Principal's dashboard for that teacher. (Please note: This notification is not a clickable button.) The action that is required is to sign off on the teacher's goal(s).

Please note: There may also be an orange **NEW** notification by the hyperlinked text called **Other Evidence**. If that is true, that notification is an alert that the teacher has also shared some type of evidence with you.

2. Click on the hyperlinked text by the teal-colored notification described in **Step #1** above, and you will come to the **Student Growth** section further down on the page. Then click on the green **View** button for that teacher to get more information.

3. The **Student Growth Summary** page for that teacher displays two tabs, a description of the steps for writing and approving the **Student Growth Goals**, an area for the Principal to write additional (optional) notes, a checklist of tasks, and a green **Sign-off** button.

The screenshot shows the 'Student Growth Summary' page. At the top, there are two tabs: 'Summary' and 'Align & Score'. On the right, there is a green button labeled 'Goals Sign-off'. Below the tabs, the page is divided into several sections. On the left, under the 'Process' heading, there are three sub-sections: 'Receive Student Growth Goals', 'Score Rubric & Sign-off', and 'Align & Score Collected Evidence'. On the right, there is a 'Student Growth Checklist' with three items: 'Received Student Growth Goal' (checked), 'Score Rubric & Sign-off' (checked), and 'Align & Score Collected Evidence' (unchecked). Below the checklist, there is a 'Goal Statement' section with a goal ID 'C3' and a description. Below that is a 'Rubric/Status' table with columns for Rubric, Collected, Packaged, Score, and Status. The table shows a goal with a score of 3 and a status of 'Ready for Goal Sign-off'. At the bottom, there is an 'Evaluator Notes (optional)' section with a text area for notes.

Summary **Align & Score** All changes saved **Goals Sign-off**

Student Growth Summary

Process

The checklist on the right will help you to keep track of where you are in the Student Growth process. In addition, you will receive dashboard notifications when important events occur.

Receive Student Growth Goals

At this stage you are waiting for the teacher to establish his goals for the current year and share them with you. Once the goals have been shared, you will receive a dashboard notification and the checklist will indicate the completion of this step.

Score Rubric & Sign-off

At this stage the student growth goals are available for review and sign-off by you. Before the goals can be signed-off, the rubric components for establishing goals must be scored. This can be done in the Align & Score section. When you are ready, click the sign-off button. After you have signed-off on the goals, the teacher will receive a dashboard notification and will be able to start collecting evidence to demonstrate student growth results.

Align & Score Collected Evidence

At this stage you will have access to the evidence collected by the teacher over the school year that demonstrates student growth results. You can score the rubric components for this evidence in the Align & Score section. When you are ready, click the Share Scores button to make your scores visible to the teacher.

Summary

Goal Statement

C3

By May 2013, 100% of ESL student will improve in writing by one performance level as indicated by the quarterly district writing prompt and the district-provided rubric.

Rubric/Status

Rubric	Collected	Packaged	Score	Status
C3	SG 3.1	3	0	<p>Status: Ready for Goal Sign-off</p> <p>Last Activity: Student Growth Goals shared by Teacher</p> <p>Action Required</p>

Evaluator Notes (optional)

Provide notes here

4. Click on the **hyperlinked text** for a Student Growth Goal (shown in the diagram at the bottom of **Step #3**). It will activate the **Align and Score** tab, and again, significant information about the **Student Growth Goal** is displayed in the work space. The main parts of the screen include:
- Two tabs
 - Collected evidence
 - Other evidence you can add
 - Rubric alignment
 - Performance level bar
 - The **Rubric Navigator**
 - Quantifiable data about the **collected** and **packaged** evidence
 - The green **Goals Sign-off** button

Please Note:

You can also arrive at this same window by clicking on the **Align and Score** tab, and then choosing the pertinent component in the **Rubric Navigator**.

The screenshot shows the 'Student Growth Goals' interface for Teacher A. At the top, a blue banner states 'The goal(s) have been shared. Share date: 8/13/2016.' Below this are two tabs: 'Summary' and 'Align & Score'. The 'Align & Score' tab is active, showing a performance level bar with 'Uns', 'Bas', 'Pro', and 'Dis' levels. A large green circle labeled 'b' highlights the 'Collected Evidence' section, which lists evidence items with details like 'Type: Artifact', 'Created: Aug 13, 2016', and 'Title: Pre-Goal Data - ESL - Writing'. A green circle labeled 'c' points to the 'Add Other Evidence' button. A green circle labeled 'd' points to the 'Rubric Alignment' table, which has columns for 'UNS', 'BAS', 'PRO', and 'DIS'. A green circle labeled 'e' points to the 'Performance level bar'. A green circle labeled 'f' points to the 'Rubric Navigator' panel, which shows a table of evidence items with 'Collected' and 'Packaged' counts. A green circle labeled 'g' points to the 'Evidence' tab in the Rubric Navigator. A green circle labeled 'h' points to the 'Goals Sign-off' button in the top right corner.

5. Read Chapter 3d to learn how to score and sign off on a teacher's student growth goal.

Chapter 3d: Scoring a teacher's student growth goal

Context:

Principals can score the evidence of a teacher's **Student Growth Goal**, and then sign off of the goal statement. This chapter covers the required steps for doing so. It's also a continuation of **Chapter 3c**.

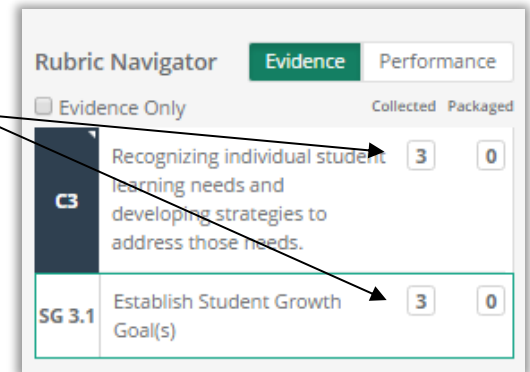

For Principals:

1. The Rubric Navigator has kept track of Student Growth Goal activity that is related to the rubric. In the image to the right, it has quantified the Evidence that has been collected for this teacher's Student Growth Goal. The numeral "3" in the Rubric Navigator matches the number of items listed under the Collected Evidence section in the work space:

- An artifact
- The Student Growth Goal
- Response to the Student Growth Goal Prompt

See the image in **Chapter 3c, Step 4**.

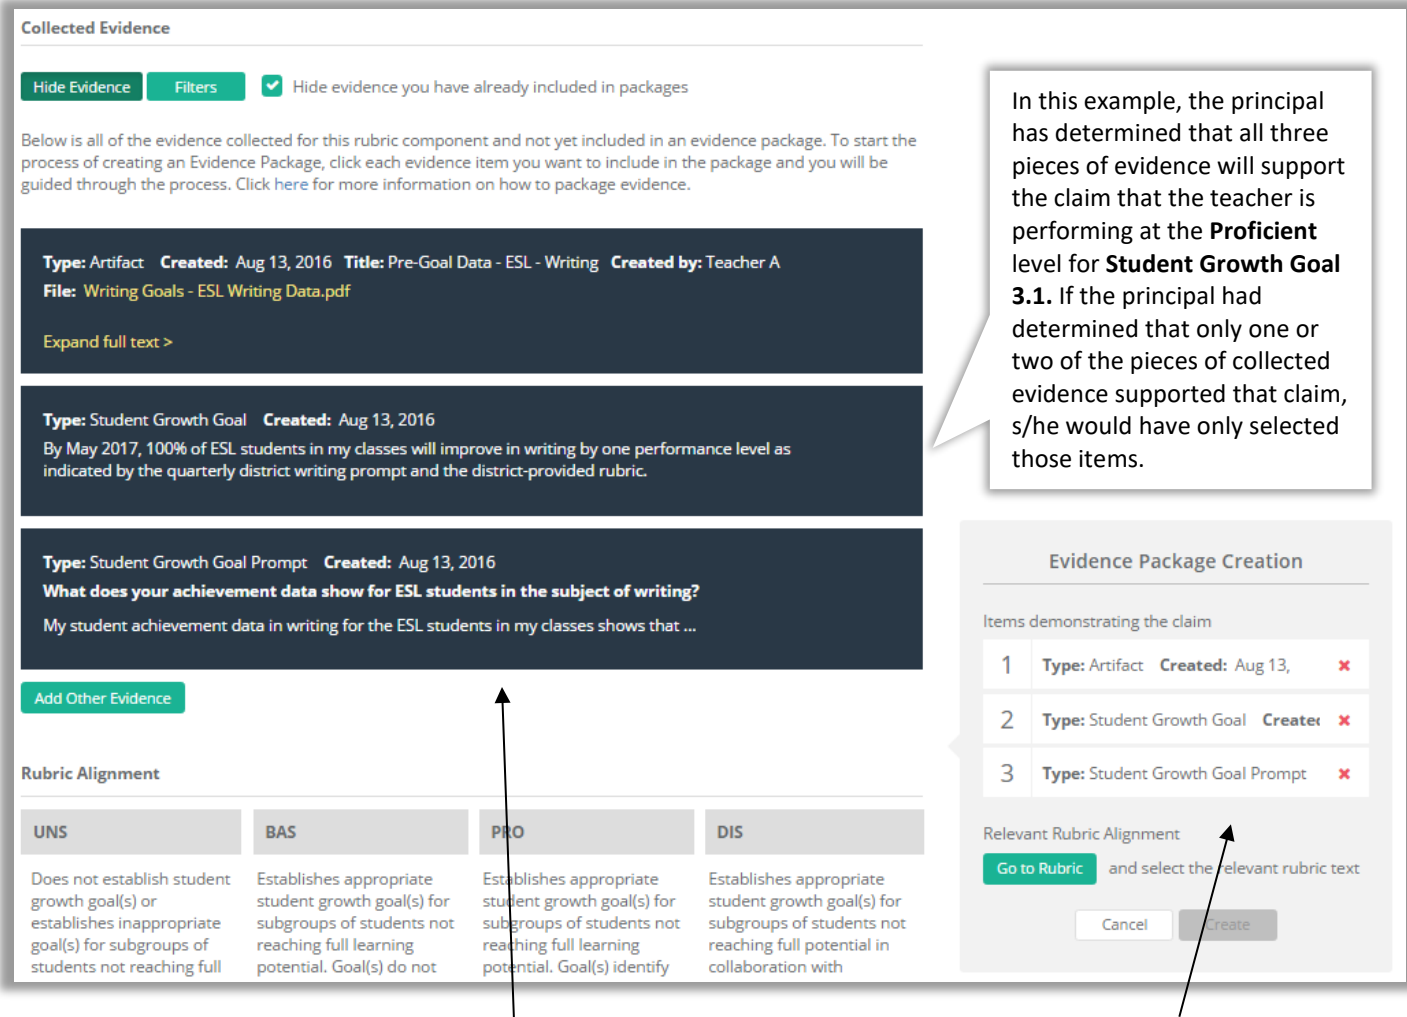

See **Pages 65 and 68** to learn more about **collected** and **packaged** evidence.

The screenshot shows the 'Rubric Navigator' with two tabs: 'Evidence' (selected) and 'Performance'. Under the 'Evidence' tab, there are two sub-tabs: 'Evidence Only' and 'Collected' (selected). The 'Collected' sub-tab shows a table with two rows. The first row is 'Recognizing individual student learning needs and developing strategies to address those needs.' with a 'Collected' count of 3 and a 'Packaged' count of 0. The second row is 'Establish Student Growth Goal(s)' with a 'Collected' count of 3 and a 'Packaged' count of 0. Arrows point from the text in the first list item to these counts.

	Collected	Packaged
Recognizing individual student learning needs and developing strategies to address those needs.	3	0
Establish Student Growth Goal(s)	3	0

2. To align and score the evidence, click on each item in the **Collected Evidence** section that states a single performance-related claim.

The screenshot shows the 'Collected Evidence' section with three items. The first item is an artifact titled 'Pre-Goal Data - ESL - Writing' created by Teacher A. The second item is a Student Growth Goal: 'By May 2017, 100% of ESL students in my classes will improve in writing by one performance level as indicated by the quarterly district writing prompt and the district-provided rubric.' The third item is a Student Growth Goal Prompt: 'What does your achievement data show for ESL students in the subject of writing? My student achievement data in writing for the ESL students in my classes shows that ...'. An arrow points from the text in the third list item to the third item. Below the items is an 'Add Other Evidence' button. At the bottom is a 'Rubric Alignment' table with four columns: UNS, BAS, PRO, and DIS. The 'PRO' column is highlighted. An arrow points from the text in the third list item to the 'PRO' column. To the right is a callout box explaining the example. Below the callout box is the 'Evidence Package Creation' box, which shows a list of items demonstrating the claim (1 artifact, 2 Student Growth Goal, 3 Student Growth Goal Prompt) and a 'Relevant Rubric Alignment' section with a 'Go to Rubric' button and a 'Create' button. Arrows point from the text in the third list item to the 'Go to Rubric' button and the 'Create' button.

Collected Evidence

---	--------------------------------------	---

If you wish to replace the text selection, remove the current one first.

- All of the evidence that was selected for the package will now appear in the **Packaged Evidence** section at the bottom of the work space. And the **Rubric Navigator** will now quantify the evidence that was aligned and scored for this Student Growth Goal.

- After aligning and scoring the **Student Growth Goal** against the rubric, it's time to sign-off that the goals have been collected, aligned, scored and approved. Click on the green button called **Goal Sign-off** in the top right corner.

Rubric Navigator

Evidence Only		Collected	Packaged
CS	Recognizing individual student learning needs and developing strategies to address those needs.	3	3
SG 3.1	Establish Student Growth Goal(s)	3	3

10. A small window will appear like the one to the right. Type a summary note from the meeting (optional). Then click the green **Sign-off** button.

11. You'll return to the **Student Growth Summary** work space, where you'll find some new changes:

- The **Student Growth Checklist** has been updated with one more completed task.
- A new goal has been added at the bottom of this teacher's **Student Growth Goal** dashboard.
- The principal's notes are now displayed on the **Summary** page.
- The principal can now share the scores assigned to evidence of the student achievement goal.

Student Growth Goals Sign-off

After the Sign-off, the Rubric scores and meeting note (if used) will be shared with the teacher. Additionally, it will enable the teacher to start collecting Evidence for these Goals.

Provide a summary note of the meeting: (optional):

During our meeting, the teacher and principal agreed that ...

Student Growth Summary

Process

The checklist on the right will help you to keep track of where you are in the Student Growth process. In addition, you will receive dashboard notifications when important events occur.

Receive Student Growth Goals

At this stage you are waiting for the teacher to establish his goals for the current year and share them with you. Once the goals have been shared, you will receive a dashboard notification and the checklist will indicate the completion of this step.

Score Rubric & Sign-off

At this stage the student growth goals are available for review and sign-off by you. Before the goals can be signed-off, the rubric components for establishing goals must be scored. This can be done in the Align & Score section. When you are ready, click the sign-off button. After you have signed-off on the goals, the teacher will receive a dashboard notification and will be able to start collecting evidence to demonstrate student growth results.

Align & Score Collected Evidence

At this stage you will have access to the evidence collected by the teacher over the school year that demonstrates student growth results. You can score the rubric components for this evidence in the Align & Score section. When you are ready, click the Share Scores button to make your scores visible to the teacher.

- ✓ Align & Score Collected Evidence

12. At this point, the next step is the Teacher's to take, who will begin collecting evidence of the achievement of the goals. **However, these steps in Chapter 3d will need to be repeated once the teacher submits evidence of achieving the Student Growth Goal.**

◆ Chapter 3e: Collecting evidence for achievement of the goals

Context:

Once the principal signs off of a teacher's **Student Growth Goal(s)** and shared them, the teacher's eVAL tabs and work spaces for the **Student Growth Goals** menu will change slightly in preparation for the teacher's next steps.

For Teachers:

You will now notice some changes to your eVAL **Dashboard**, as well as to your work spaces for the **Student Growth Goals** pages.

There will be an orange **NEW** notification near the hyperlinked **Student Growth** text. This notification itself is not hyperlinked.

There will also be an orange **NEW** notification in the **Status** column in the **Student Growth** table that sits in the work space. Again, this notification is not hyperlinked.

The status of the process has been updated in the **Info** column, and a new **Student Growth Goal** will appear under the **Rubric** column in the table. It is a hyperlink.

CHAPTER 4

OBSERVATIONS

■ Chapter 4a: Setting up observations and pre/post-conference prompts

Context:

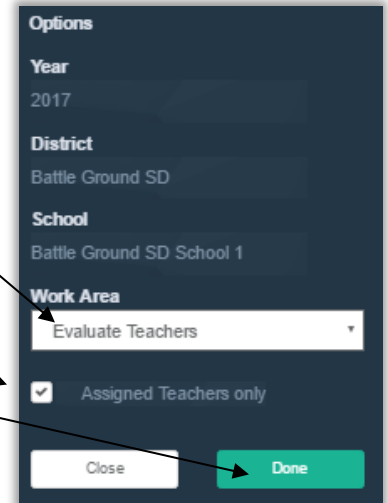

One way in which principals collect evidence and performance data is through the practice of observations. This part of the chapter provides information about the steps that are required for the principal to schedule an observation.

For Principals:

The observation process in eVAL begins with you. When signing into eVAL, click on the **Options** link. Use the pull-down menu for the **Work Area** to **Evaluate Teachers**.

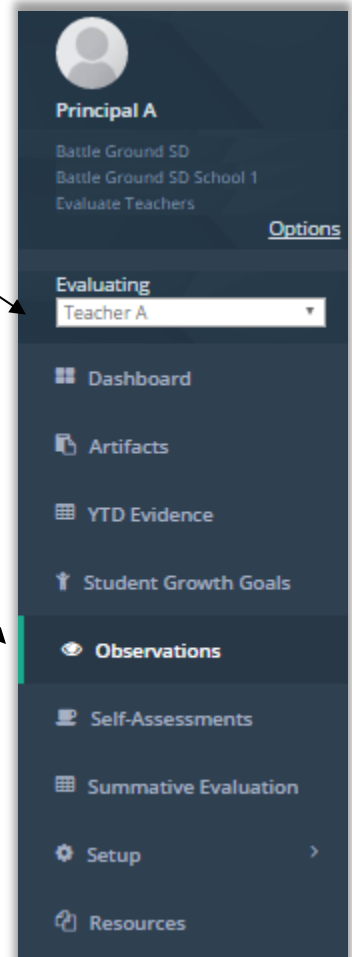

If you wish to only see information about the teachers to whom you are assigned, place a checkmark in the box by **Assigned Teachers Only**.

Click on the green **Done** button.

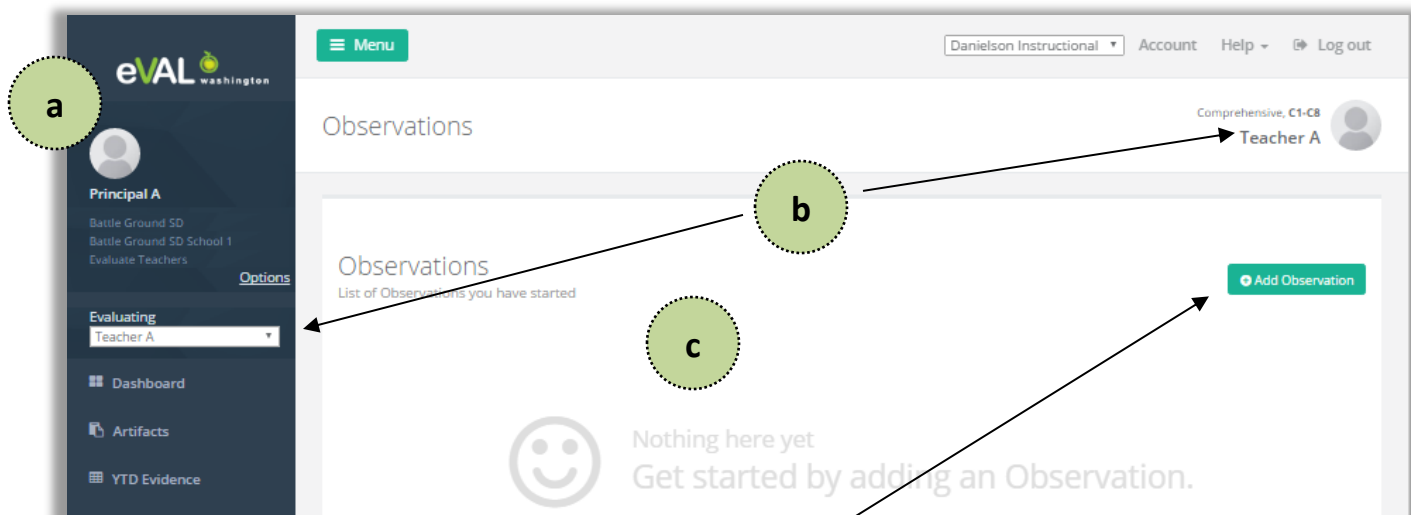

The screenshot shows the 'Options' menu in the eVAL system. It includes fields for 'Year' (2017), 'District' (Battle Ground SD), and 'School' (Battle Ground SD School 1). The 'Work Area' is set to 'Evaluate Teachers'. There is a checkbox for 'Assigned Teachers only' which is checked. At the bottom are 'Close' and 'Done' buttons. Arrows from the text instructions point to the 'Evaluate Teachers' dropdown, the 'Assigned Teachers only' checkbox, and the 'Done' button.

1. Use the drop-down menu to select the teacher who you will be evaluating through an observation.
2. Click on the **Observation** menu on the left. A green marker will appear next to the word **Observations**.

The screenshot shows the main menu of the eVAL system. At the top is the user profile for 'Principal A' from 'Battle Ground SD' and 'Battle Ground SD School 1', with a link to 'Options'. Below this is a dropdown menu currently showing 'Evaluating Teacher A'. The main menu items are: Dashboard, Artifacts, YTD Evidence, Student Growth Goals, **Observations** (highlighted with a green bar), Self-Assessments, Summative Evaluation, Setup, and Resources. Arrows from the text instructions point to the 'Evaluating Teacher A' dropdown and the 'Observations' menu item.

3. The **Observations** page will appear, and has some great features to remind you where you are:
 - a. Your identity
 - b. The teacher you are going to observe
 - c. The list of observations that have been scheduled, started or completed. The image below shows what the window looks like the first time a principal schedules an observation for this teacher. Once s/he schedules observations, the page will be populated with the observations that have been scheduled.

4. To schedule an observation, click on the green button called **Add Observation**. A pop-up screen will appear, asking you to select the type of observation you would like to schedule. For the purpose of this user guide, we will choose **Formal**.

5. The work space for the **Observation Setup** tab will appear. Enter the title of the observation, and click in the pertinent fields to select the date and time of the observation, as well as the pre- and post-conferences. **Please Note:** When selecting the **Start Time** for each, make sure you click on each green **SAVE** button that appears under each time field. (Not shown in image below.)

Please Note:

If the pertinent teacher is on a comprehensive plan, that's all you'll see in the work space for the **Observation Setup** tab. However, you'll see more options in this work space if the teacher is on a focused plan. In that case, refer to the next step.

6. For teachers who are on a focused plan, you will see a section entitled **Observation Focus**, with a check mark by **Focus Lock**.

The screenshot shows the 'Observation Setup' form. On the left, a sidebar lists fields: Evaluator: Principal A, Teacher: Teacher B, Eval Cycle: Focused, C3, Type: Formal (Focused), and Observation Focus: Focused, C3. The main form area contains: Observation Title: Obs 2016-2017.1; Pre-Conference Date: 2016-08-24; Observation Date: 2016-08-25; Post-Conference Date: 2016-08-26; Start Time: 09:30 AM; Start Time: 10:00 A; Duration: 30 Min.; Start Time: 09:30 AM. At the bottom, the 'Observation Focus' section is highlighted in dark blue, showing 'C3 Recognizing individual student learning needs and developing strategies to address those needs.' and a 'Focus Locked' checkbox that is checked. Arrows from the text above point to the 'Observation Focus' section, the 'Focus Locked' checkbox, and the 'Eval Cycle: Focused, C3' field.

Focus Lock makes sure that all observations throughout the year stay in alignment to the current year's evaluation cycle for that teacher. Unlocking a focused observation will make all criteria available to be evaluated, even those outside of this year's chosen focus. If you choose to unlock this feature, the following message will appear on your screen.

The 'Unlock Focus' dialog box contains the following text: 'Focus lock' makes sure that all Observations throughout the year stay in alignment to the current year's evaluation cycle. Unlocking a focused Observation will make all criteria available to be evaluated, even those outside of this year's chosen focus. Note: this action only affects the current Observation, if you want to change the yearly Evaluation focus you can do so through the administration section, or by contacting the district administrator. in either case please consult your district guidelines when making a change. At the bottom are two buttons: 'Cancel' and 'Yes, I want to unlock focus'. An arrow from the text above points to the dialog box.

Cancel or confirm your decision to unlock the focus.

Confirming your decision to unlock the focus will make the evaluation type shown in **Step #6** above change to **comprehensive**.

(For the purpose of this user guide, the focus will remain locked.)

- Click on the **Pre (Pre-Conference)** tab. The following work space will appear. It lists the **optional** and **required** prompts that were created and configured by the District Administrator of eVAL, the School Administrator, or the Principal.

- When you have finished selecting the prompts you wish to send to the teacher, click on the green button called **Send Prompts**, located in the lower right corner of the work space. Once you send the prompts, they will appear in the teacher's Pre-Conference tab in their Observation menu.
- Prepare the post-conference prompts in the same way, following **Steps 7-9** above.

◆ Chapter 4b: Preparing for the pre-conference (and post-conference)

Context:

Once a principal schedules an observation, the teacher will receive a notification in his/her dashboard. At that point, the teacher can begin preparing for the observation. For this part of the user guide, a teacher on a **focused** plan will be used as an example.

For Teachers:

The next time the teacher signs into eVAL, an orange notification symbol called **NEW** (for “New Activity”) will appear in two spots in his/her dashboard. This orange notification symbol is simply a notification ... it is not a hyperlinked icon.

The screenshot shows the eVAL dashboard for Teacher B. At the top, there are tabs for 'Summary' and 'Coverage'. Below the tabs, the user is identified as 'Teacher B' with the note 'This view contains all of the information collected for Teacher B'. The 'Activity Summary' section includes links for 'Observations', 'Self-Assessments', 'Other Evidence', and 'Student Growth'. An orange 'New' notification icon is placed next to the 'Observations' link. Below this is the 'Status' section, which contains a table with evaluation data. The 'Observations' section follows, with a note that evaluator scores must be shared before rubric evidence details are displayed. It contains a table with columns for 'Info', 'Rubric', 'Collected', 'Packaged', 'Score', 'Status', and 'Actions'. The first row of the observations table shows 'Obs 2016-2017.1' with details like 'Created: Aug 11, 2016' and 'Evaluator: Principal A'. The 'Status' column for this row shows 'Status: In-progress', 'Last Activity: Formal', and 'Observation has started', followed by an orange 'New' notification icon. The 'Actions' column contains a green 'View' button. Two arrows from the text above point to these 'New' icons: one to the one next to 'Observations' and another to the one in the 'Status' column of the observations table.

3e	Demonstrating Flexibility and Responsiveness

2. Click on the **Pre (Pre-Conference)** tab. You will need to respond to any prompts listed in the **Prompts** section of the work space. When you have typed your responses and are ready to send them to your principal, click on the green **Share Responses** button. The green button will change to a text statement that says the summary was shared.

The screenshot shows the 'Pre' tab of a workspace. At the top, there are tabs for 'Setup', 'Pre', 'Post', 'Artifacts', and 'Report'. The 'Pre' tab is active. Below the tabs, there is a header 'Pre-Conference' and a sub-header 'Here you can answer and share your Pre-Conference prompt responses with your evaluator and write the summary of your meeting'. The main section is titled 'Prompts' and contains a list of prompts. The first prompt is 'Describe the learning activity that I will observe. What is the learning target for the students? How will you know if they have met the learning target? What evidence will you use to demonstrate that the learning target has'. The response to this prompt is: 'During the activity, I will pose an environmental problem. In small groups, they'll discuss the problem I've posed to them, and will identify at least three possible solutions to it. As a group, they will use a rubric to choose the best of the three solutions to share out. The learning target is that students will use a rubric to identify the best solution out of their three. I will know if the learning target is met if the students can point out how their solution aligns to the rubric, and why it was a better solution than the other possible solutions they brainstormed.' The second prompt is 'Do you have any concerns about the activity I will observe? If so, please share.' The response to this prompt is: 'I'm concerned that we may run out of time to finish this activity.' At the bottom of the workspace, there is a section titled 'Teacher Pre-Conference Summary' with a sub-header 'Notes that summarize the meeting (optional)'. The response to this section is: 'Not at this time.' There are two green buttons: 'Share Responses' and 'Share Conference Summary'. Arrows point from the text in the instructions to these elements: 'Pre (Pre-Conference)' tab, 'Prompts' section, 'Share Responses' button, 'Teacher Pre-Conference Summary' section, and 'Share Conference Summary' button.

3. The **Pre-Conference Summary** section will appear at the bottom of the work space. This section is optional, and provides a text field for summarizing the pre-conference conversation that takes place between the teacher and principal. If you choose to use this option, type in a summary statement, and then finish by clicking on the green button entitled **Share Conference Summary**. If you choose to type and share a summary, the green button will change to a text statement that says the summary was shared.
4. The next time the principal signs in to his/her eVAL account, s/he will be able to read the teacher's responses to the prompts and the pre-conference summary (if sent).

Chapter 4c: Coding teacher responses for pre- and post-conference prompts

Context:

Once a teacher responds to the pre-conference (or post-conference) prompt(s) and shares his/her responses, the principal can view them in eVAL and code them as evidence. This section of this chapter covers the pertinent steps for coding the pre-conference prompts, but the same steps are used to code the post-conference prompts.

For Principals:

The next time the principal signs into eVAL, an orange notification symbol called **NEW** (for NEW activity) will appear in two spots in his/her dashboard. This orange notification symbol is simply a notification ... it is not a hyperlinked icon.

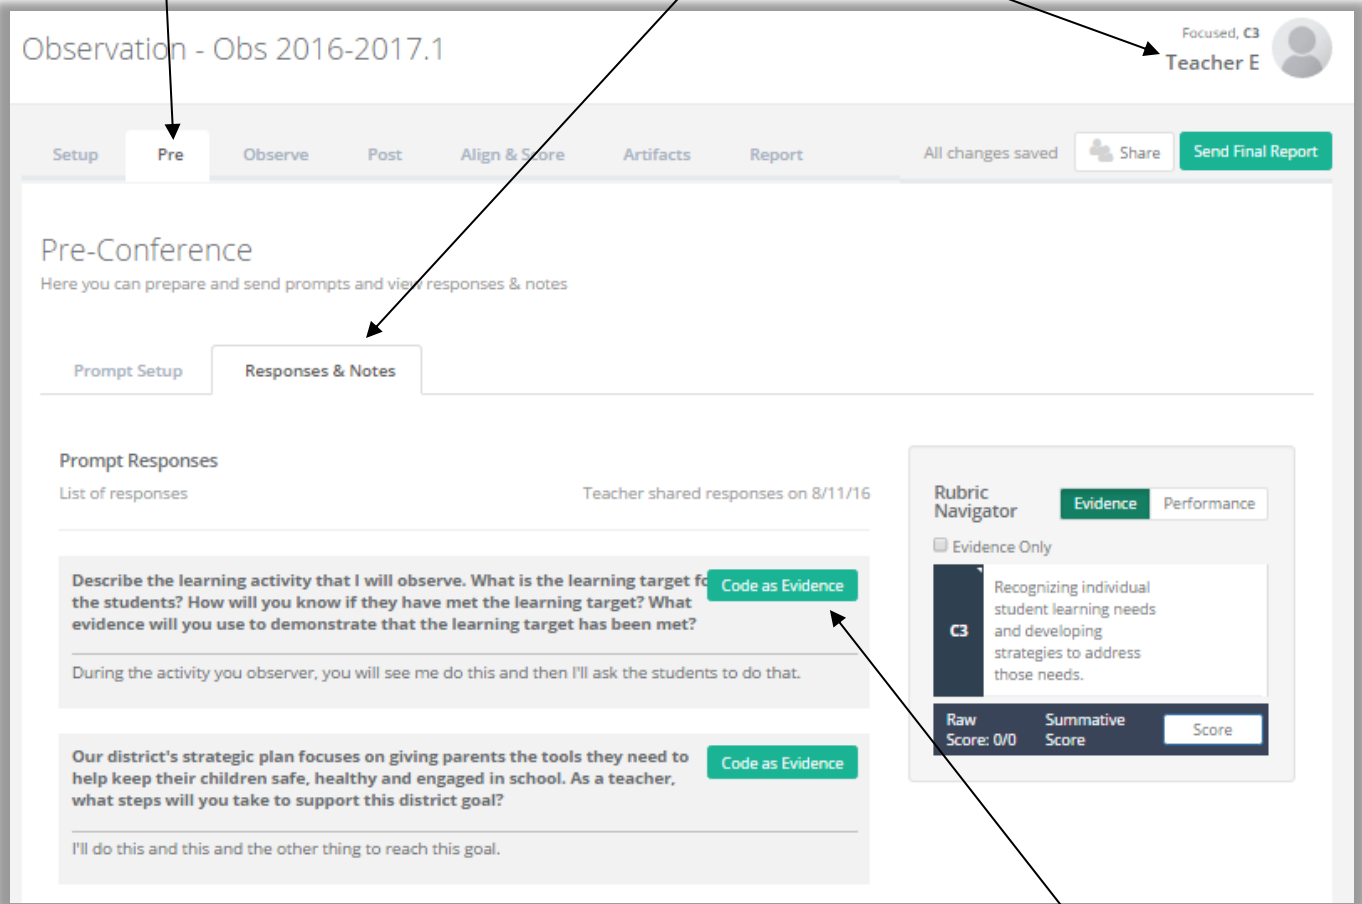

The screenshot displays the eVAL dashboard for Principal A. The sidebar on the left contains navigation links: Dashboard, Artifacts, YTD Evidence, Student Growth Goals, Observations, Self-Assessments, Summative Evaluation, Setup, and Resources. The main content area is titled 'Dashboard - Teacher E' and shows information for 'Teacher E'. Under 'Activity Summary', there are links for Observations, Self-Assessments, Other Evidence, and Student Growth. A 'Status' table shows Principal A's status as 'Focused C3' with 1 formal observation count and 30 minutes. Below this is an 'Observations' table with columns for Info, Rubric, Collected, Packaged, Score, Status, and Actions. The first row shows 'Obs 2016-2017.1' with a 'View' button. Arrows point to the 'New' notification icons in the 'Activity Summary' and 'Observations' sections.

Evaluator	Eval Cycle	Formal Obs. Count	Formal Obs. Minutes	Summative Score
Principal A	Focused C3	1	30	N/A

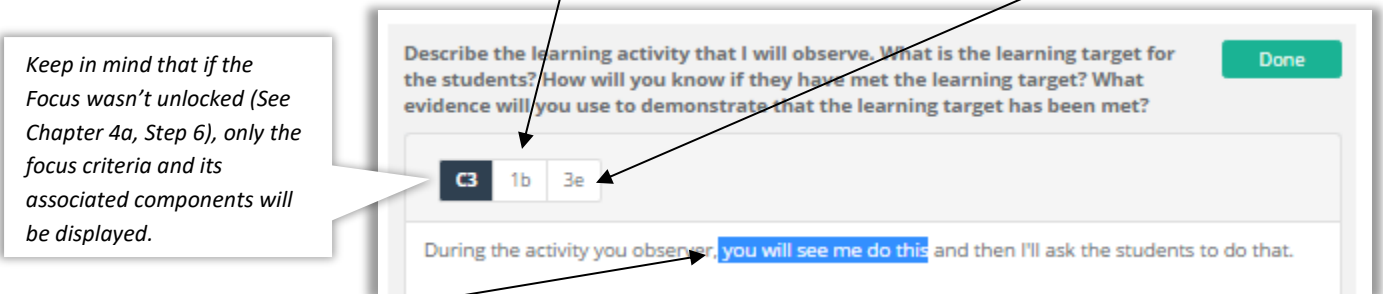

Info	Rubric	Collected	Packaged	Score	Status	Actions
Obs 2016-2017.1 Created: Aug 11, 2016 Evaluator: Principal A Type: Formal (Focused) Duration: 30 minutes					Status: In-progress Last Activity: Pre-Conference Summary Notes shared by Teacher New	View

To see more information about the observation cycle and to prepare for it, click on the green **View** button.

1. Activate the **Pre (Pre-conference)** tab, and make sure that the pertinent teacher is showing up in the right hand corner. Also make sure that the sub-tab that is selected is called **Responses and Notes**.

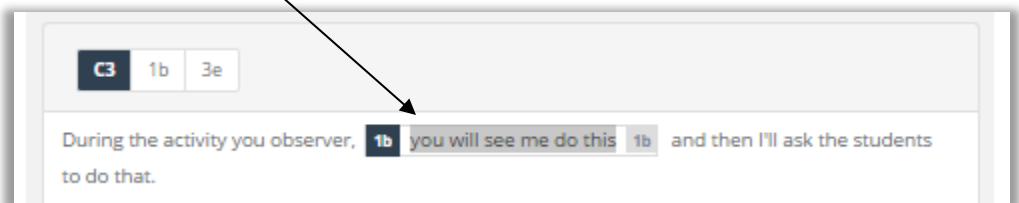

2. To **code a segment of text as evidence**, click on the green **Code as Evidence** button for that prompt's response.
3. A small bar will appear, displaying the state criteria and the instructional framework's components. If you hover your mouse over the components, the name of the component will temporarily appear.

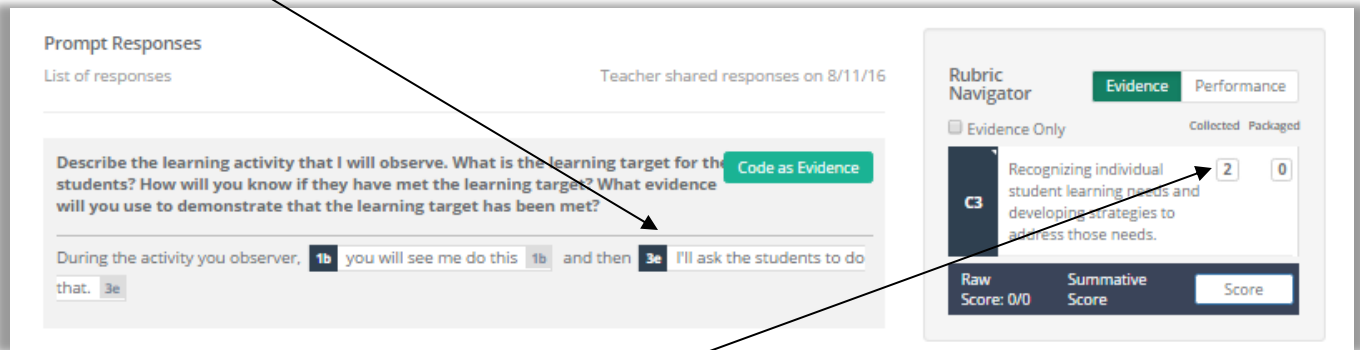

Highlight the text that you wish to code as evidence. Click on the pertinent component on the bar that you want to code it to.

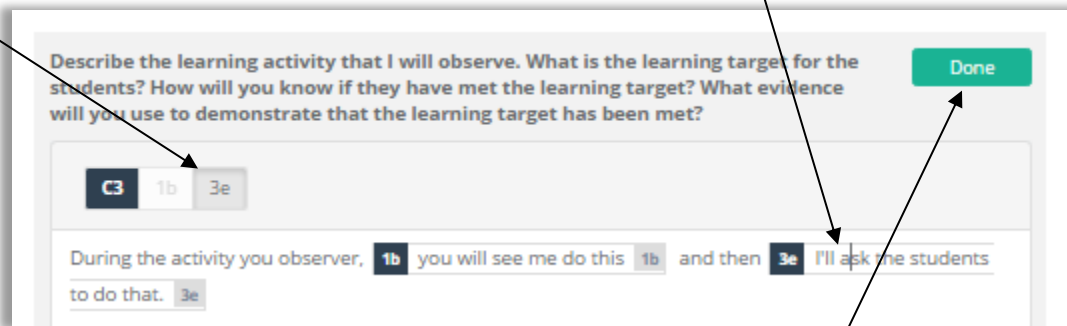

4. The result will look like the following, with the coded component surrounding the evidence text that you highlighted:

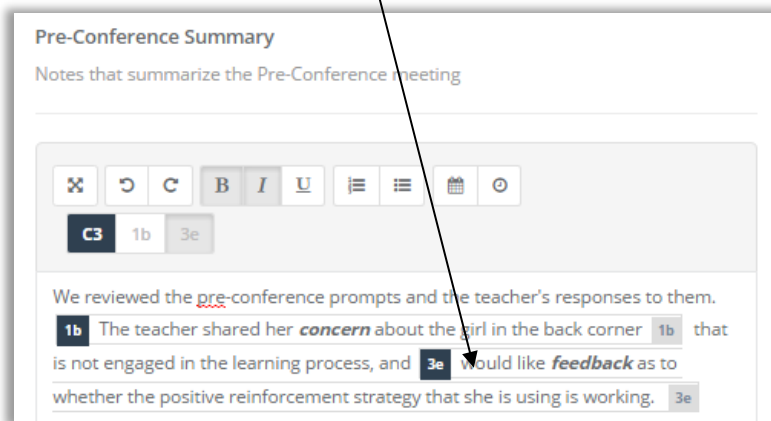

5. Highlight other text that you wish to use as evidence for this observation's component, and code it in the same way.

6. As you code evidence, the floating **Rubric Navigator** on the right side of your screen will monitor the number of pieces of evidence you have collected from the teacher's responses and coded.
7. If you want to revise the coding you've done, simply click on the text that you coded, and the relevant component in the code bar will appear. Click on it to "uncode" the evidence. A dialog box may appear, asking if you want to proceed and remove the code.

8. When you are done coding evidence for a prompt response, click on the green **Done** button. It will revert back to the green **Code as Evidence** button. If you wish to make any changes, simply click on the green **Code as Evidence** button, and follow **Steps #1-4** above. If there are other responses on this page to code, do it now.
9. The **Pre-Conference Summary** section appears further down the page. Enter your summary notes into this field, if you wish.

10. At the bottom of the page, you'll see the section entitled **Teacher Pre-Conference Summary**, and if the teacher has summarized the **Pre-Conference** meeting, his/her notes will appear in the text box. Code them in the same way as the **Prompt Responses**. Use the **Rubric Navigator** to monitor the number of pieces of evidence that have been collected and coded.
11. Return to this sub-chapter (**Chapter 4c**) when you are ready to code the teacher's responses to the **post-conference prompts**.

■ Chapter 4d: Conducting an observation

Context:

Now that the pre-conference activity has been completed, it's time for the observation. This part of the chapter will be devoted to the steps involved in conducting an observation.

For Principals:

Sign into eVAL and use the **Options** link to make sure that you are in the **Work Area** called **Evaluate Teachers**. Use the drop-down menu to choose the teacher you will observe, and then click on the **Observations** menu. The teacher's name will appear in the top right corner, and the list of observations that you have started for this teacher will be listed in the work space.

The screenshot shows the eVAL interface for Principal A. The left sidebar contains a navigation menu with links to Dashboard, Artifacts, YTD Evidence, Student Growth Goals, and Observations. The main content area is titled 'Observations' and shows a list of observations for Teacher B. The first observation is dated Aug 11, 2016, is a Formal (Focused) observation, and is in progress. The status is 'In-progress' and the last activity is 'Pre-Conference Prompts Updated by Evaluator'. A green 'View' button is next to the observation. Arrows point from the text instructions to the 'Options' link, the 'Evaluating Teacher B' dropdown, the 'Observations' menu item, the 'View' button, and the teacher's name in the top right corner.

Date	Type	Created By	Title	Status	Action
Aug 11, 2016	Formal (Focused)	Principal A	Obs 2016-2017.1	Status: In-progress Last Activity: Pre-Conference Prompts Updated by Evaluator	View

To get started with an observation, click on the green **View** to continue this teacher's observation activity. Make sure the **Observe** tab is active. Take your notes in the text editor. Code them like you were coding the teacher's prompt responses. See **Chapter 4c**. Use the floating **Rubric Navigator** on the right to monitor the collection of evidence that you code.

The screenshot shows the 'Observe' tab in the eVAL interface. The top navigation bar includes Setup, Pre, Observe, Post, Align & Score, Artifacts, and Report. The main content area is titled 'Observation Notes' and contains a text editor with a rich text toolbar. The text in the editor describes a lesson where a teacher pairs ESL students with English-speaking students and reviews writing lessons. The text is coded with '1b' and '3e' tags. On the right side, there is a 'Rubric Navigator' panel showing a table of evidence collected. The table has columns for 'Evidence Only', 'Collected', and 'Packaged'. The first row is for 'Recognizing individual student learning needs and developing strategies to address those needs', which is coded with 'C3'. The 'Raw Score' is 0/0 and the 'Summative Score' is 0. Arrows point from the text instructions to the 'Observe' tab, the text editor, and the 'Rubric Navigator' panel.

Evidence Only	Collected	Packaged
<input type="checkbox"/> Evidence Only	<input checked="" type="checkbox"/> Collected	<input type="checkbox"/> Packaged
C3 Recognizing individual student learning needs and developing strategies to address those needs.	5	0

Raw Score: 0/0 Summative Score: 0

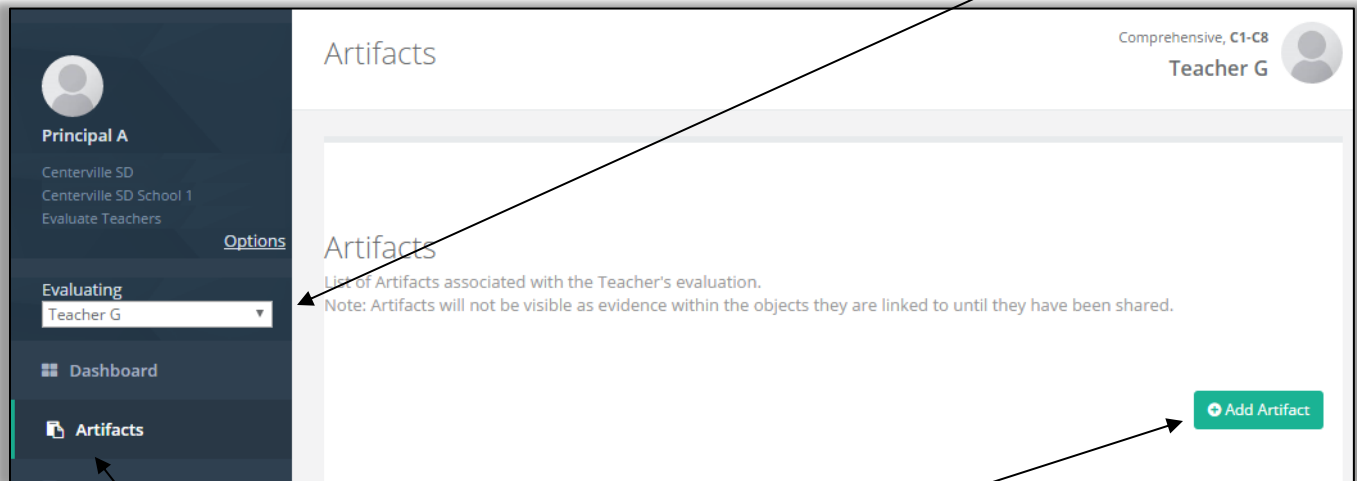

■ Chapter 4e: Adding and connecting artifacts to an observation

Context:

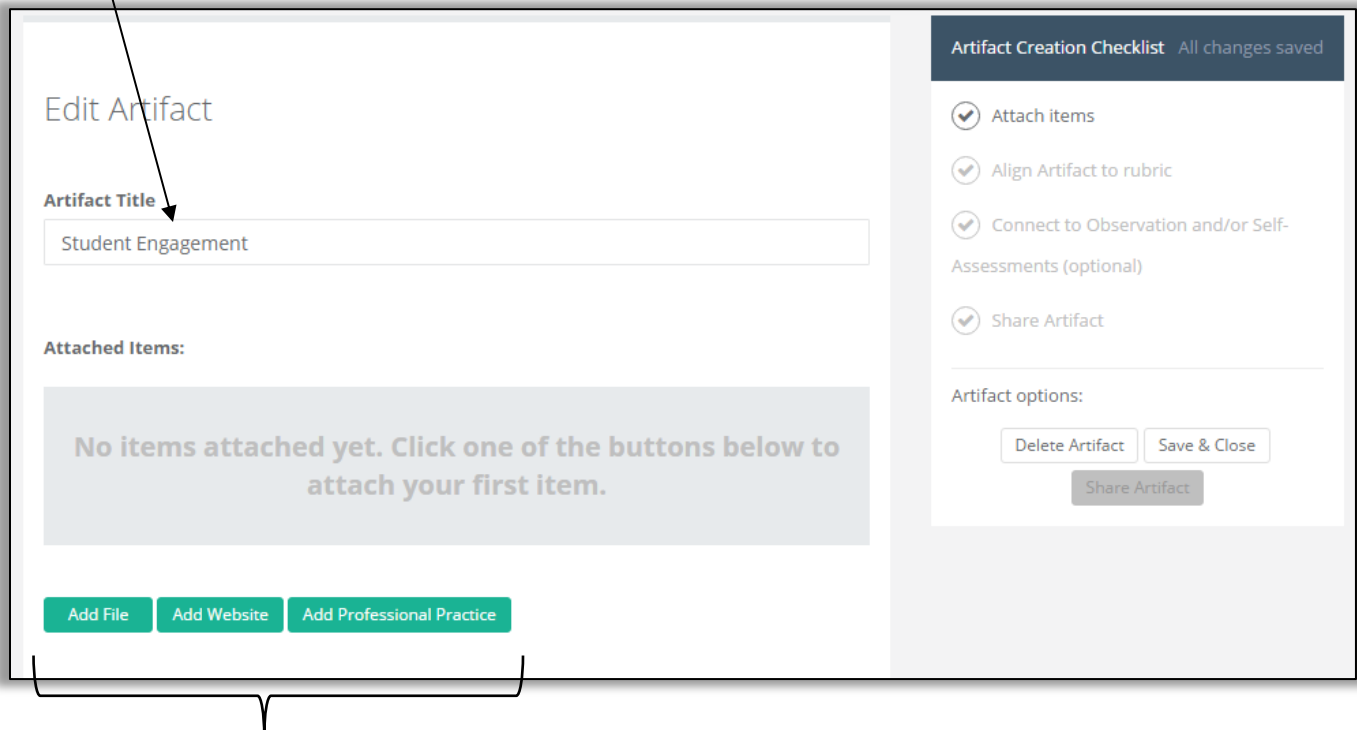

Principals can collect artifacts during an observation that can be used as evidence of performance. This part of the chapter will provide the steps for doing so.

For Principals:

1. Sign in to the eVAL tool, and make sure that your work area is to **Evaluate Teachers**. Use the drop-down menu in the left menu area to select the teacher you would like to add an artifact for.

2. Click on the **Artifacts** menu item. Then click on the green **Add Artifact** button in the work space. The following screen will appear. Give your artifact a title.

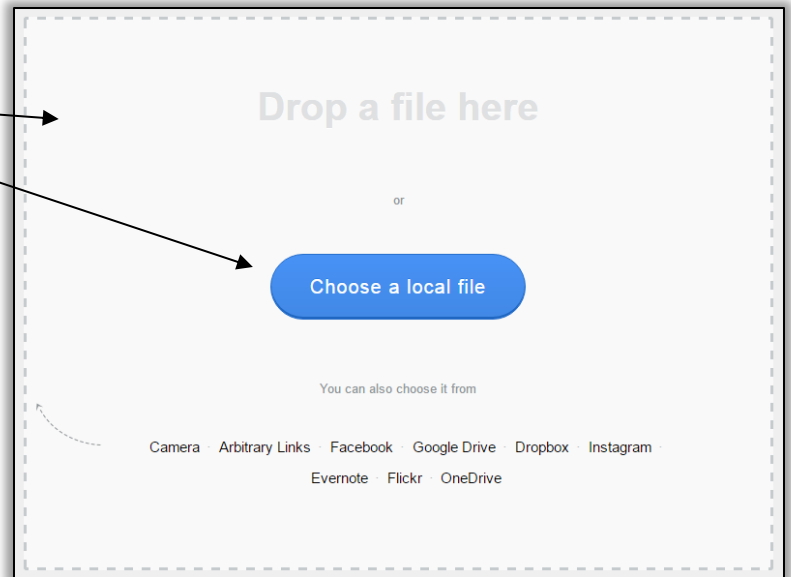

3. eVAL can handle three types of artifacts: (1) files; (2) web site URLs, and (3) typed descriptions of observed professional practices. Most of the artifacts will be files on your hard drive, but occasionally, the artifacts will be web sites or professional practices.

3a. How to add a file as an artifact:

Click on the green button called **Add File** (see **Step 2** above). A window like the one to the right will appear.

Click on the blue button that says **Choose a local file**. Navigate out to your hard drive and find the file that you wish to use as an artifact from the observation.

The file will now be “attached.”

Click on the green **Done** button to confirm your selection of the file.

A screenshot of the 'Edit Artifact' window. It has a title bar 'Edit Artifact'. Below it is a text input field for 'Artifact Title' containing 'Student Engagement'. Underneath is a section 'Attached Items:' which contains a 'File:' entry with the text 'Artifact - Obs - St Engagement.pdf'. Below that is a 'Friendly Name: (optional)' section with an input field containing 'Enter Title'. At the bottom right are three buttons: 'Cancel', 'Choose File', and 'Done'. An arrow from the text 'The file will now be “attached.”' points to the file entry. Another arrow from 'Click on the green Done button...' points to the 'Done' button.

3b. How to add a web site URL as an artifact:

Click on the green button called **Add Website** (see **Step 2** on page 56). A window like the one to the right will appear.

Type in the URL for the web site address.

Click on the green **Done** button to confirm the URL you typed for the artifact.

A screenshot of the 'Edit Artifact' window. It has a title bar 'Edit Artifact'. Below it is a text input field for 'Artifact Title' containing 'Google doc for student collab'. Underneath is a section 'Attached Items:' which contains a 'Website URL:' entry with the text 'http://docs.google.com/0dkfjlekd23kden56'. Below that is a 'Friendly Name: (optional)' section with an input field containing 'Enter Title'. At the bottom right are two buttons: 'Cancel' and 'Done'. An arrow from the text 'Click on the green Add Website button...' points to the top of the window. Another arrow from 'Type in the URL for the web site address.' points to the website URL input field. A third arrow from 'Click on the green Done button...' points to the 'Done' button.

3c. How to add a description of a professional practice as an artifact:

Click on the green button called **Add Professional Practice** (see **Step 2** on page 56). A window like the one to the right will appear.

Type in your description of the professional practice that you observed during the observation.

Click on the green **Done** button to confirm the URL you typed for the artifact.

Edit Artifact

Artifact Title

Intro to Tchr Blog for Parents

Attached Items:

Describe the practice:

At the end of the lesson, the teacher showed the students her blog that shares information with their parents about the lesson, its goals, its significance in the community, and the pertinent assigned homework.

Friendly Name: (optional)

Enter Title

Cancel Done

4. Continued from the bottom of Page 56:

When you “attached” your artifact in Steps 3a or 3b or 3c above, two things occurred. First, the first step in the floating panel called **Artifact Creation Checklist** (on the right side of the work space) was marked as **complete**, noted with a green circle around a checkmark.

The second thing that occurred was the appears of the **Rubric Component Alignment** section of the workspace, where you can align the artifact with your instructional framework. See below:

Rubric Component Alignment Select at least one item

D1 Planning and Preparation

D2 The Classroom Environment

D3 Instruction

D4 Professional Responsibilities

SG Student Growth

Artifact Creation Checklist All changes saved

✓ Attach items

✓ Align Artifact to rubric

✓ Connect to Observation and/or Self-Assessments (optional)

✓ Share Artifact

Artifact options:

Delete Artifact Save & Close

Share Artifact

When the **Rubric Component Alignment** section first appears, only the domains/dimensions will be displayed. To view the components, continue to **Step #5**.

5. To view the components of the rubric, click on the pertinent domain/dimension, and the components for that domain/dimension will be revealed.
6. Click on one (or more) component that the artifact aligns to. Every time you select a component, a green marker will be displayed next to it.
7. When you are done aligning the artifact to the rubric components, click on the green **Done** button in the top right corner of this section.

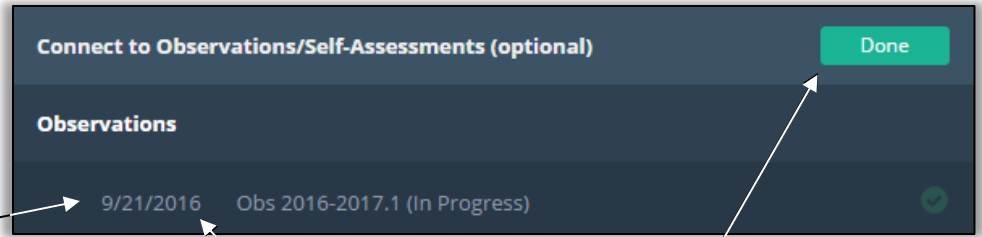

8. When you click on the green **Done** button (in **Step 7** above), three things change on the screen:

First, the **Rubric Component Alignment** section is now displaying the component(s) that the artifact is aligned to.

Secondly, a new section appears in the work space that allows you to connect this artifact to an observation or to a self-assessment, and to write a rationale statement.

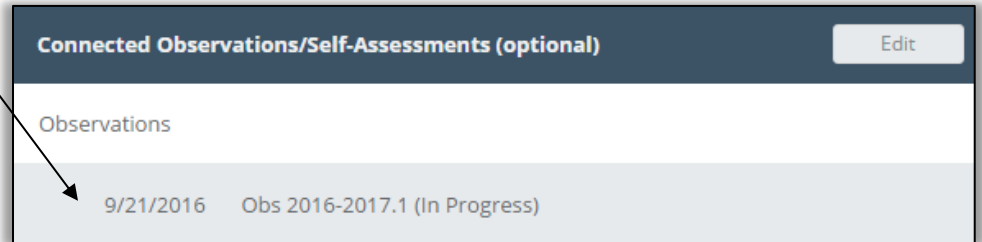

Third, the floating **Artifact Creation Checklist** now notes that the second step of creating an artifact is now complete.

9. To connect this artifact to the observation in progress, find the new section of the screen that says **Connect to Observation/Self-Assessments (optional)**. If there are any observations or self-assessments that are in progress, they will be listed in this section.

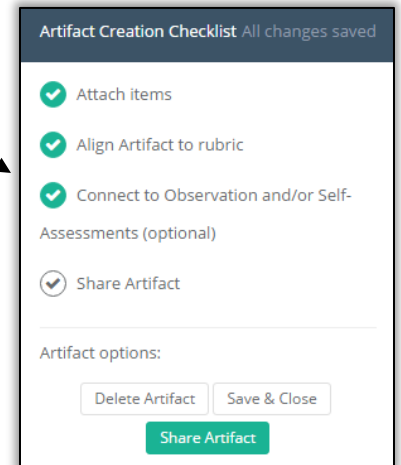

10. Click on the pertinent observation that you want to connect this artifact to. Then click on the green **Done** button.

11. At this point, your artifact will be connected to the observation, and you can still enter a rationale for the alignment.

In addition, the floating **Artifact Creation Checklist** will now have a third green checkmark to note the continued progress in creating this artifact.

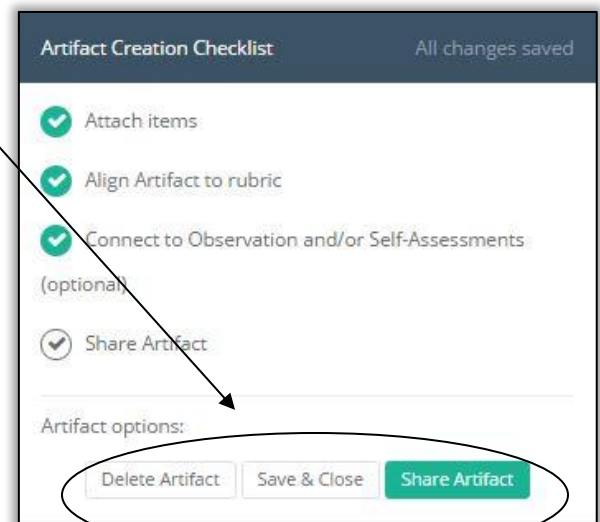

12. At this point, you can delete the artifact, save the artifact without sharing it yet, or share the artifact. If/When you are ready to share the artifact with the teacher, click on the green **Share Artifact** button.

PLEASE NOTE:

Sharing your artifact makes the artifact visible to the teacher.

*Sharing your artifact is not the same as **sharing your observation notes**. That is a distinctly different step.*

13. The artifact will show up in three places in the principal's eVAL tool and the teacher's eVAL tool when the artifact is shared. (See Step 12 above.)

First, the principal and the teacher will both be able to see the artifact in the **Artifacts** menu for that teacher.

The screenshot shows the 'Artifacts' menu for Teacher G. The left sidebar contains navigation options: Dashboard, Artifacts (selected), YTD Evidence, and Student Growth Goals. The main content area is titled 'Artifacts' and includes a note: 'List of Artifacts associated with the Teacher's evaluation. Note: Artifacts will not be visible as evidence within the objects they are linked to until they have been shared.' Below this is a table with the following data:

Date	Title	Source	Shared	Attached Item	Connected To	Rubric Alignment	Action
Sep 21, 2016	Student Engagement	Principal A	Shared	File: Artifact - Obs - St Engagement.pdf	Observations Obs 2016-2017.1	D3 (3a, 3c)	Edit

The principal and the teacher will both be able to see the artifact under the **Artifacts** tab when working in the **Observations** menu.

The screenshot shows the 'Artifacts' tab within the 'Observations' menu for Teacher G. The left sidebar is the same as the previous screenshot. The main content area is titled 'Observation - Obs 2016-2017.1' and includes tabs for Setup, Pre, Observe, Post, Align & Score, Artifacts (selected), Report, and All changes saved. Below the tabs is a table with the following data:

Date	Title	Source	Rubric Selected	Actions
Sep 21, 2016	Student Engagement	Principal A	D3 (3a, 3c)	View

The principal and the teacher will both be able to see how the artifact aligns to the framework when working in the **YTD Evidence** menu.

The screenshot shows the 'YTD Evidence' menu for Teacher G. The left sidebar contains navigation options: Dashboard, Artifacts, YTD Evidence (selected), Student Growth Goals, Observations, Self-Assessments, and Summative Evaluation. The main content area is titled '3a - Communicating with Students' and includes a section for 'Collected Evidence'. Below this is a table with the following data:

Type	Created	Title	Created by	Connected to	File
Artifact	Sep 21, 2016	Student Engagement	Principal A	Observation (Obs 2016-2017.1)	Artifact - Obs - St Engagement.pdf

Below the table is an 'Add Other Evidence' button. To the right is a 'Rubric Navigator' section with a table showing alignment scores:

Rubric Component	Collected	Packaged
D1 Planning and Preparation		
D2 The Classroom Environment		
D3 Instruction	2	0
3a Communicating with Students	1	0
3b Using Questions and Discussion Techniques		
3c Engaging Students in Learning	1	0

■ Chapter 4f: Sharing observation notes with the teacher

Context:

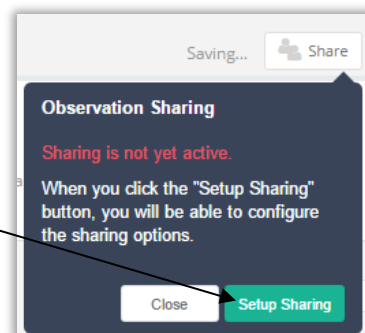

When your notes are entered and coded, and your artifacts are attached and connected to this observation (optional), you may wish to share certain aspects of your observation notes with the teacher.

For Principals:

14. To share the observation notes with the teacher, click on the **Sharing** button while the **Observe** tab is active.

15. A message will appear with an alert that the sharing feature is not yet active. Click on the green button called **Setup Sharing**.

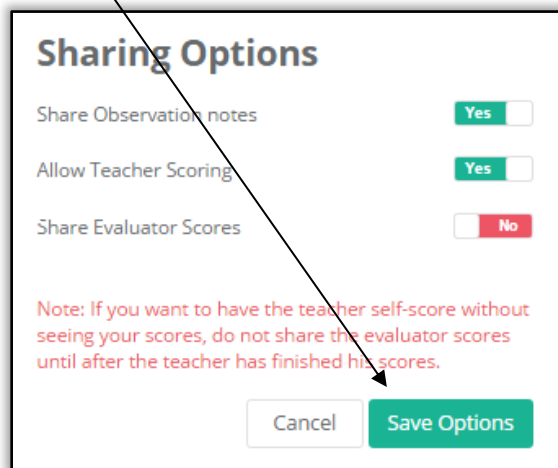

16. Make your selections in the dialog box that appears, and then click on the green button entitled **Save Options**.

Clicking on **Share Observation Notes** adds an **Observation** tab to the teacher's **Observation** workspace. The teacher will be able to view the principal's **Observation Notes**, but not any of the principal's coding of the notes.

Clicking on **Allow Teacher Scoring** adds an **Align and Score** tab to the teacher's **Observation** workspace. It also allows teachers to see the principal's evidence, but not the principal's scores or evidence packages. This allows the teacher to create evidence packages and score independently of (or before) the principal.

Clicking on **Share Evaluator Scores** allows the teacher to view the coding, alignment and scores that the principal has assigned to the **observation evidence**. It also provides an **input filter** for the teacher so that s/he can toggle between (and compare) his/her scores with the evaluating principal's.

17. The **Sharing** button will now look different, and will indicate that some aspect of this observation is being shared.

18. When you are ready to share your scores with the teacher, return to the **Shared** button, click on it, choose **Edit**, and choose **Share Evaluator Scores**. Click the **Save Options** button. When you share your scores, the teacher will be able to view your scores of the observation evidence in their **Align and Score** tab for the **Observation** menu, and compare it against their own self-evaluation of it.

To carry out the post-conference process, refer to Sections 4a through 4c of this chapter.

◆ Chapter 4g: The teacher's self-evaluation of the observation

Context:

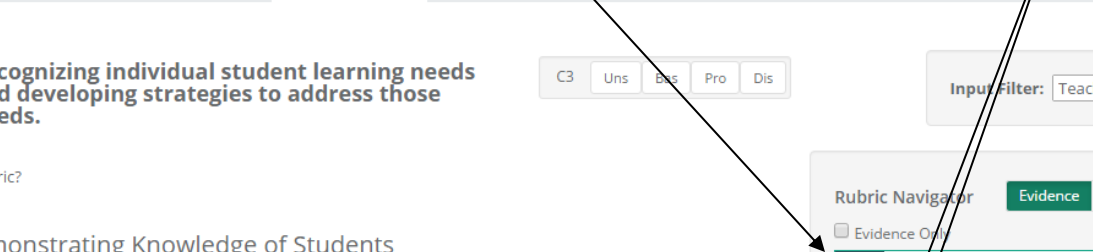

The teacher can engage in his/her own evaluation of the observation evidence. In order to do so, the principal must have selected **Allow Teacher Evaluation** and **Share Evaluator Scores** in the **Sharing Setup** of the observation (See **Chapter 4d, Step #4**).

For Teachers:

The next time you sign into eVAL, you should see two orange notifications near the **Observation** section of your dashboard. Click on the **Observations** menu, and click on the green **View** button that appears to the right of the open observation.

Date	Type	Created By	Title	Status	Action
Aug 11, 2016	Formal (Focused)	Principal A	Obs 2016-2017.1	Status: In-progress (shared) Last Activity: Observation sharing changed	View

The **Sections Setup** tab will be displayed. Click on the **Align and Score** tab. The work space will change and will look somewhat like the following window. Click on the criteria in the **Rubric Navigator** to reveal the instructional framework's components.

Setup Pre Observe Post **Align & Score** Artifacts Report All changes saved Sharing Status Self-Eval Complete

C3 Recognizing individual student learning needs and developing strategies to address those needs.

☐ Show Rubric?

1b - Demonstrating Knowledge of Students

3e - Demonstrating Flexibility and Responsiveness

Input Filter: Teacher's Only

Rubric Navigator Evidence Performance

☐ Evidence Only Collected Packaged

C3	Recognizing individual student learning needs and developing strategies to address those needs.	10	0
1b	Demonstrating Knowledge of Students	5	0
3e	Demonstrating Flexibility and Responsiveness	5	0

Raw Score: 0/0 Summative Score Score

If the pull-down menu near the words **Input Filter** (above the **Rubric Navigator**) displays multiple types of input, select **Teacher's Only**.

In the **Rubric Navigator**, click on a component level that you would like to self-evaluate. Then follow the steps in **Chapter 4g**.

If/When you have completed your self-evaluation of the observation evidence, go to the top of the page and click on the green button entitled **Self-Evaluation Complete**. When the dialog box appears, click on the green button entitled **Yes, share my input**.

A screenshot of a dialog box titled "Share Self-Eval with Evaluator". The text inside says: "After clicking the **Self-Eval Complete** button, all of your evidence packages & scores will be visible to the Evaluator and no further input will be available." At the bottom, there are two buttons: "Cancel" and "Yes, share my input". An arrow points from the "Yes, share my input" button to the "Sharing Status" button in the previous screenshot.

The green button's icon will change, and at this point, the principal will now be able to view your self-assessment.

■ Chapter 4h: Viewing the teacher's self-evaluation

Context:

The teacher's self-evaluation of the observation provides a rich opportunity for a conversation with the evaluating principal. This section of the user guide will focus on what the principal sees after the teacher completes and shares his/her self-evaluation.

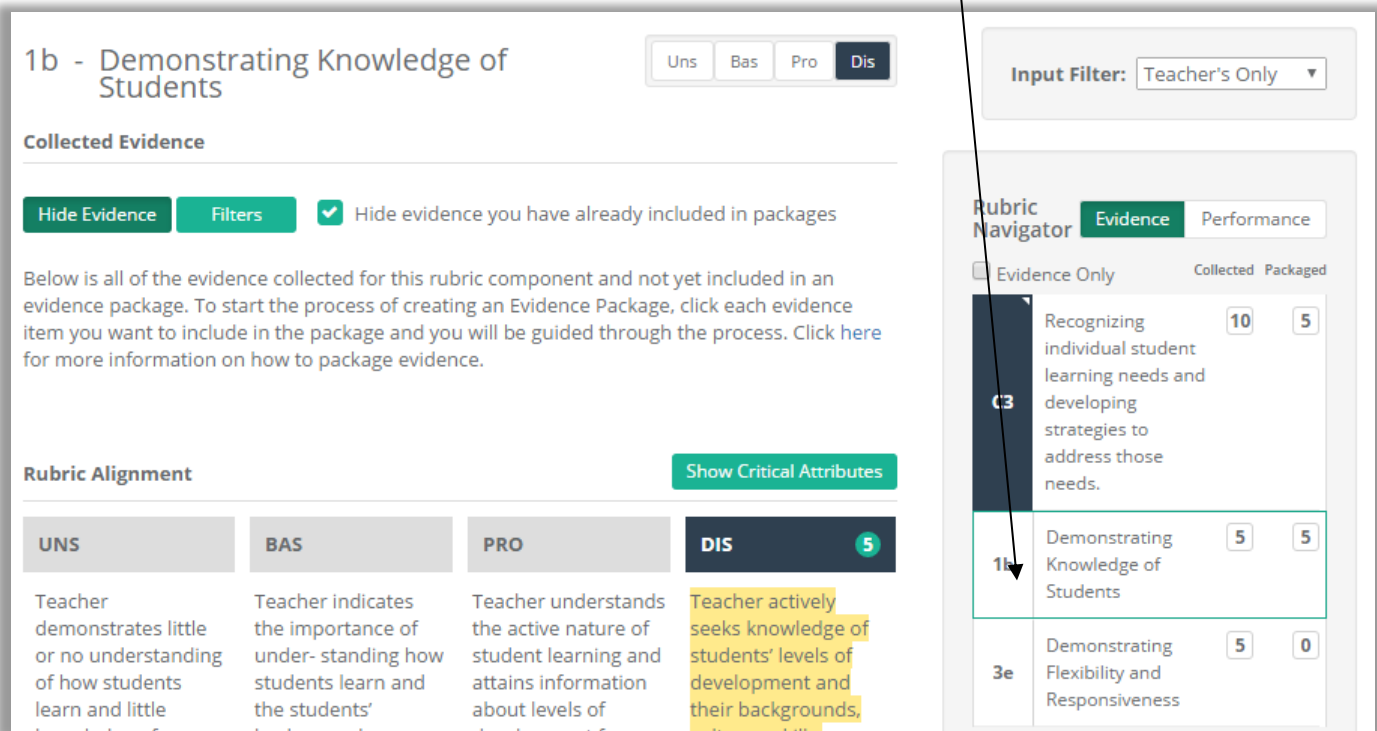

For Principals:

Sign into eVAL and use the **Options** link to make sure that you are in the **Work Area** called **Evaluate Teachers**. Use the drop-down menu to choose the teacher whose self-evaluation of the observation you wish to view, and then click on the **Observations** menu. The teacher's name will appear in the top right corner, and the list of observations that you have started for this teacher will appear in the work space. Click on the green **View** button for the pertinent observation.

Click on the **Align and Score** tab. In the top right corner, use the pull-down menu by the **Input Filter** to select your desired view.

In the **Rubric Navigator**, click on the domain/dimension to expand it, and click on a component to see the teacher's self-evaluation.

If you choose a **Merged View**, a key at the top will help you to understand the coloring in the performance bar for each component.

■ Chapter 4i: Aligning/Scoring/Packaging observation evidence

Context:

When all three events of the observation have been completed (the pre-conference, the observation and the post-conference), the principal can align and score the evidence that has been collected and coded. S/He can also package the evidence.

Simply collecting evidence over the course of the year without creating evidence packages would mean that at the end of the year, the principal would need to review every single piece of evidence to create the scores for the summative assessment. **Evidence that is simply collected, but not packaged, has no scores or qualitative measures attached.**

However, if principals are selecting the most representative pieces of evidence and creating evidence packages during the course of the year, they will be able to view the **Performance** button at the top of the **Rubric Navigator** and see a visual representation of where they have connected that evidence to the rubric. **Having this qualitative information will make it much easier to develop summative scores.**

By creating evidence packages during the year, the principal is avoiding having to do all of the qualitative assessment at the end of the year. It also shows the teacher where they are during the course of the year, instead of not knowing until the very end.

The packaged evidence should be a subset of all of the collected evidence, and certainly doesn't need to be completed for every piece. **Quality is more important than quantity!**

PLEASE NOTE:

Non-summative scoring is only possible if the District Administrator of eVAL has enabled it in the school district's General Settings.

For Principals:

Sign into eVAL and use the **Options** link to make sure that you are in the **Work Area** called **Evaluate Teachers**. Use the drop-down menu to choose the teacher whose observation evidence you wish to align and score. Click on the **Observations** menu. The teacher's name will appear in the top right corner, and the list of observations that you have started for this teacher will be listed in the work space.

1. Click on the green **View** button for that teacher's observation. Then click on the **Align and Score** tab. The floating **Rubric Navigator** will display the number of all pieces of evidence collected so far. The total will be displayed at the **criteria** level, and will also be broken down at the **component** level.

The screenshot shows the 'Align & Score' interface in eVAL. The top navigation bar includes 'Setup', 'Pre', 'Observe', 'Post', 'Align & Score' (selected), 'Artifacts', and 'Report'. On the right, there are buttons for 'All changes saved', 'Shared', and 'Send Final Report'. The main content area is divided into two sections. The left section lists criteria: 'C3 Recognizing individual student learning needs and developing strategies to address those needs.', '1b - Demonstrating Knowledge of Students', and '3e - Demonstrating Flexibility and Responsiveness'. The right section is the 'Rubric Navigator', which has tabs for 'Evidence' and 'Performance'. The 'Evidence' tab is selected, showing a table with columns for 'Evidence Only', 'Collected', and 'Packaged'. The table lists the criteria and their corresponding scores. The 'Performance' button is highlighted. Arrows point from the text in step 1 to the 'Align & Score' tab and the 'Rubric Navigator'.

	Evidence Only	Collected	Packaged
C3 Recognizing individual student learning needs and developing strategies to address those needs.		10	0
1b Demonstrating Knowledge of Students		5	0
3e Demonstrating Flexibility and Responsiveness		5	0

Raw Score: 0/0 Summative Score

2. Click on one of the components, and you will see all of the observation evidence aligned with that component. Go to the next page to learn more about all of the features of this work space.

3e	Demonstrating Flexibility and Responsiveness				

Raw Score: 0/0 Summative Score Score

■ Chapter 4j: Sending the final report

Context:

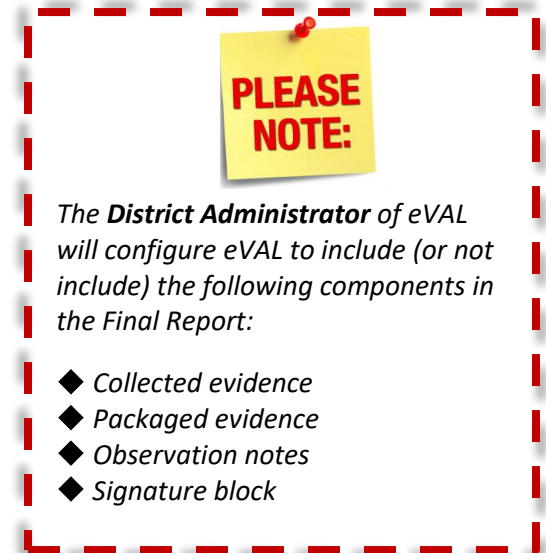

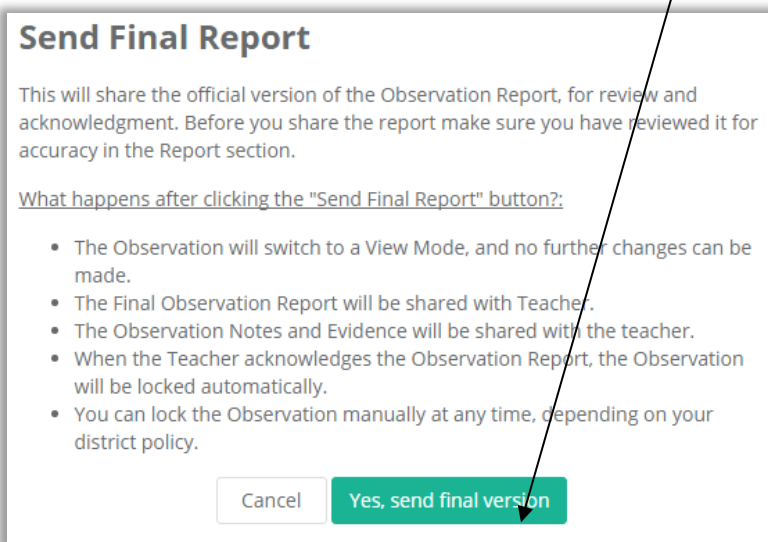

When the post-conference is complete and there is nothing more to do in regard to the observation cycle, you can lock the observation and send the final report to the teacher. The elements that are included in the final observation report will be determined by the District Administrator settings. See the appendices of this user guide.

For Principals:

At the top of the **Align and Score** work space for the teacher's observation, click on the green button entitled **Send Final Report**.

Read the alert box that appears, and click the green **Yes, send final version** button to send the report ... or ... click on the **Cancel** button.

When the teacher receives the report and acknowledges its receipt, the observation cycle will be marked **complete**. (However, you can also bring the observation to a conclusion by clicking on the green button entitled **Mark as Complete** at any time.)

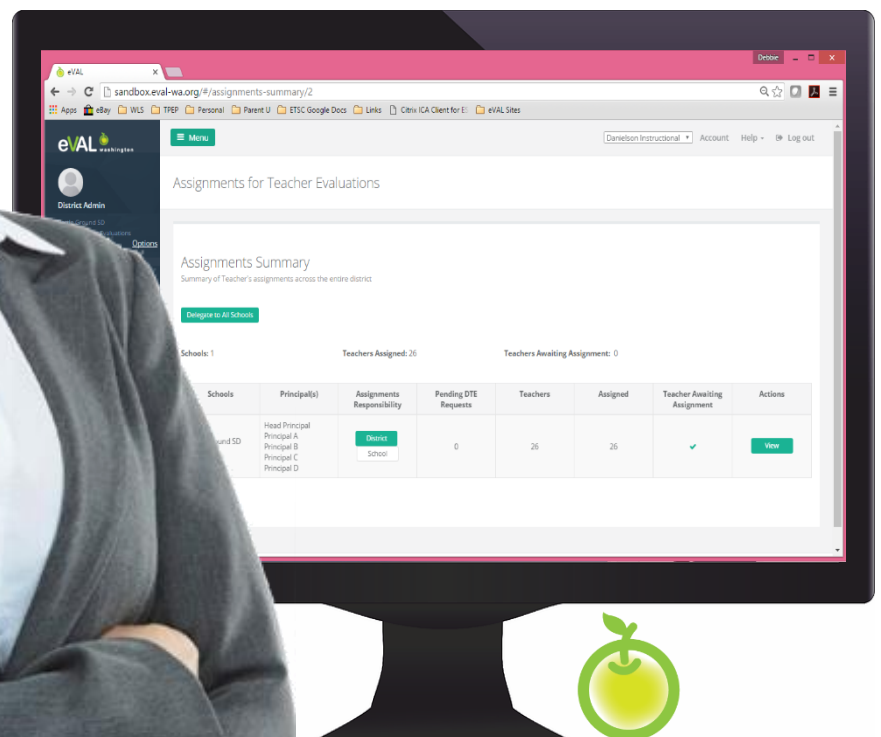

If either party wishes to unlock the final observation, they will need to use the green **Request Unlock** button at the top of the page. This sends a message to the other party, who can either allow or deny the request.

APPENDICES

DISTRICT ADMINISTRATOR SETTINGS THAT AFFECT YOUR eVAL WORK

Context:

There are some miscellaneous settings that must be configured in order for the eVAL tool to display (or not display) various features. The configurations are made by your district's **District Administrator of eVAL**, and may depend on several factors: the instructional framework your district has chosen, your union negotiations, your district's work flow and calendar, etc. This chapter simply displays the settings that the **District Administrator of eVAL** must work through as s/he configures eVAL for use in your district.
