

Spotlight on Student Success and Learning

“In our continuing efforts to strive for excellence, we have examined the support needed within the 29 districts we serve. This resulted in merging our Student Services and Teaching and Learning Departments under one umbrella, now called Student Success and Learning. As we bring together this new department, we will continue to take an asset-based approach to our skillsets and expertise and feel confident that this effort will result in a stronger and more responsive approach in supporting the districts of North Central Washington,” explained Linda McKay, NCESD Assistant Superintendent.

To lead this effort, we are thrilled to announce the hires of Darcy Johnson and Bill Eagle as Associate Directors of Student Success and Learning.

Darcy Johnson most recently served as the Special Services Director at the Moses Lake School District. She is a National Board-Certified Teacher with a Masters of Education Administration and a major in K-12 Special Education. In her role at the NCESD she will focus on Special Services, OSSI, Students with Disabilities and General Education instructional and CORE support and systems for district administration, building principals, teachers, and support staff.

Bill Eagle most recently served as the Director of State and Federal Programs for the Wenatchee School District. Previously, he has served as a Principal, Assistant Principal, Instructional Coach, and Teacher in the Wenatchee School District. Eagle holds a Masters in Mathematics Education and Principal and Superintendent certifications. His focus at the NCESD will be TPEP and BEST, OSSI, Principal Instructional Leadership and Principal Mentorship, Root cause data analysis, General Education, Federal Programs and Categorical program support and integration as they relate to the instructional CORE.

Both Johnson and Eagle will begin in their new roles with the NCESD on July 1.

SCIENCE ⚙️ TECHNOLOGY ⚙️ ENGINEERING ⚙️ MATH

Registration now open for the STEM Summit

The 2nd-Annual STEM Summit will be held on August 13-16 at the Wenatchee Convention Center.

This event will highlight multiple professional learning opportunities for teachers and educational staff members in the areas of science, technology, engineering and mathematics taught by experts and specialists in their fields. Clock hours are available and registration is limited, so don't delay!

Additional information and registration details can be found at ncesd.org/stemsummit

Smithsonian

Smithsonian STCMS™ will be at STEM Summit

The Smithsonian STCMS™ is research-based science instruction rich in experiential phenomena and engineering design. Instruction that goes beyond meeting the NGSS standards, STCMS™ steps up to the challenge of meeting the 5 Innovations of NGSS. At the STEM Summit, participants will identify the key instructional units to address the new standards. Focus will include: Three-dimensional learning; Coherent learning progression; Phenomena and design solution; Integrated Engineering and the Nature of Science; Math and literacy connected with science content.

Additional information and registration details can be found at ncesd.org/stemsummit

STEM Summit Keynote Announced

We're thrilled to announce Monday's Keynote presentation during August's STEM Summit!

Jeff Utecht, CEO of Eduro Learning will speak to The Speed of Normalcy.

We live in a digital world, we work in a digital world and we learn in a digital world. It's time to stop apologizing for being connected and start thinking about how the connection is affecting the way we work, play and live and learn.

Additional information and registration details can be found at ncesd.org/stemsummit

The mission of the North Central Educational Service District is to provide leadership and quality service in advocating for innovative educational programs for the children and communities we serve. To learn more, visit www.ncesd.org
