NEED A NEW YEAR'S RESOLUTION?

How about putting SAFETY FIRST at work, home, and play?

Stop thinking "It won't happen to me," and start believing "Without proper awareness, it's likely to happen to me."

Always adhere to safe work practices:

- Wear proper Personal Protective Equipment (PPE) at work and off-the-job.
- Use good body mechanics when handling and moving supplies or equipment.
- Ask for help moving heavy and/or awkward loads.
- Use the right tool for the job. For example using a step ladder instead of a chair.
- Practice good housekeeping by keeping cords, backpacks and other items out of walkways.

Focus on your work and leave personal life distractions at home. They increase your risk of having an accident by taking your mind off the task at hand.

Engage in safety trainings with an open mind; be attentive and ask questions.

Take time to ask questions when unsure how to do a task safely.

Yield to temptations to take shortcuts.

Follow your District's Safety Rules and be a Safety "Role Model" for others.

If you see something, say something or, better yet - do something! Report safety hazards and safety concerns immediately or take action to correct the hazard!

Report all accidents, injuries & close calls/near misses, to your supervisor immediately.

Speak up if you see someone taking a shortcut or doing something unsafe.

Take an interest in safety and volunteer to serve on your Safety Committee.

Enter our Safety Drawing for a chance to win a prize for YOURSELF and your District

Click here, visit <https://tinyurl.com/Safety-Resolutions>,
OR use your camera to scan the QR Code to enter.

*To be eligible to win you must work in a district served by NCESD #171 and submit your entry by 11:59 p.m. on January 31, 2020.

Sponsored by your friends in Safety Services at the NCESD.

SAFETY MATTERS

Let's Work Together to make our School Districts the Safest in the State!
