

Slips Trips Falls

November 4, 2021

While a slip or a trip may seem unimportant they are the leading cause of accidents in the school setting. Teachers and staff face unique challenges when it comes to backpacks, winter coats and boots, lumber and metal scattered around a room,

If you work in a classroom here are some ideas to keep your students items off the floor and under control. Consider something like this for your room.

If you work in an industrial area, let's keep it looking like this.

Please don't allow your workplace to look like this!

If you see areas in your buildings that look like these please contact your Safety Services team we would love to help you get it cleaned up.
